

**IN THE UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF MICHIGAN**

**TIMOTHY KING, MARIAN ELLEN
SHERIDAN, JOHN EARL HAGGARD,
CHARLES JAMES RITCHARD, JAMES
DAVID HOOPER, and DAREN WADE
RUBINGH,**

Plaintiffs.

v.

**GRETCHEN WHITMER, in her official
capacity as Governor of the State of
Michigan, JOCELYN BENSON, in her
official capacity as Michigan Secretary of
State and the Michigan BOARD OF STATE
CANVASSERS.**

Defendants.

CASE NO. 20-cv-13134

**FIRST AMENDED COMPLAINT FOR DECLARATORY, EMERGENCY, AND
PERMANENT INJUNCTIVE RELIEF**

NATURE OF THE ACTION

1. This civil action brings to light a massive election fraud, multiple violations of the Michigan Election Code, *see, e.g.*, MCL §§ 168.730-738, in addition to the Election and Electors Clauses and Equal Protection Clause of the U.S. Constitution. These violations occurred during the 2020 General Election throughout the State of Michigan, as set forth in the affidavits of dozens of eyewitnesses and the statistical anomalies and mathematical impossibilities detailed in the affidavits of expert witnesses.

2. The scheme and artifice to defraud was for the purpose of illegally and fraudulently manipulating the vote count to elect Joe Biden as President of the United States. The fraud was executed through a wide-ranging interstate - and international - collaboration involving multiple public and private actors,¹ but at bottom it was a 21st Century adaptation of 19th Century “ballot-stuffing” for the Internet age, amplified and rendered virtually invisible by computer software created and run by domestic and foreign actors for that very purpose. Mathematical and statistical anomalies rising to the level of impossibilities, as shown by affidavits of multiple witnesses, documentation, and expert testimony evince this scheme across the state of Michigan. This Complaint details an especially egregious range of conduct in Wayne County and the City of Detroit, though this conduct occurred throughout the State at the direction of Michigan state election officials in collaboration with Democratic election challengers and activists.

3. The multifaceted schemes and artifices implemented by Defendants and their

¹ The same pattern of election fraud and voter fraud writ large occurred in all the swing states with only minor variations in Michigan, Pennsylvania, Arizona and Wisconsin. See Ex. 101, William M. Briggs, Ph.D. “An Analysis Regarding Absentee Ballots Across Several States” (Nov. 23, 2020) (“Dr. Briggs Report”).

collaborators to defraud resulted in the unlawful counting, or fabrication, of hundreds of thousands of illegal, ineligible, duplicate or purely fictitious ballots in the State of Michigan, that collectively add up to multiples of Biden's purported lead in the State of 154,188 votes. While this Complaint, and the eyewitness and expert testimony incorporated herein, identify with specificity sufficient ballots required to set aside the 2020 General Election results, the entire process is so riddled with fraud, illegality, and statistical impossibility that this Court, and Michigan's voters, courts, and legislators, cannot rely on, or certify, any numbers resulting from this election. Accordingly, this Court must set aside the results of the 2020 General Election, and grant the declaratory and injunctive relief requested herein.

Dominion Voting Systems Fraud and Manipulation

4. The fraud begins with the election software and hardware from Dominion Voting Systems Corporation ("Dominion") used by the Michigan Board of State Canvassers. The Dominion systems derive from the software designed by Smartmatic Corporation, which became Sequoia in the United States.

5. Smartmatic and Dominion were founded by foreign oligarchs and dictators to ensure computerized ballot-stuffing and vote manipulation to whatever level was needed to make certain Venezuelan dictator Hugo Chavez never lost another election. *See* Ex. 1, Redacted Declaration of Dominion Venezuela Whistleblower ("Dominion Whistleblower Report"). Notably, Chavez "won" every election thereafter.

6. As set forth in the Dominion Whistleblower Report, the Smartmatic software was contrived through a criminal conspiracy to manipulate Venezuelan elections in favor of dictator Hugo Chavez:

Importantly, I was a direct witness to the creation and operation of an electronic voting system in a conspiracy between a company known as Smartmatic and the

leaders of conspiracy with the Venezuelan government. This conspiracy specifically involved President Hugo Chavez Frias, the person in charge of the National Electoral Council named Jorge Rodriguez, and principals, representatives, and personnel from Smartmatic. The purpose of this conspiracy was to create and operate a voting system that could change the votes in elections from votes against persons running the Venezuelan government to votes in their favor in order to maintain control of the government. In mid-February of 2009, there was a national referendum to change the Constitution of Venezuela to end term limits for elected officials, including the President of Venezuela. The referendum passed. This permitted Hugo Chavez to be re-elected an unlimited number of times. . . .

Smartmatic's electoral technology was called "Sistema de Gestión Electoral" (the "Electoral Management System"). Smartmatic was a pioneer in this area of computing systems. Their system provided for transmission of voting data over the internet to a computerized central tabulating center. The voting machines themselves had a digital display, fingerprint recognition feature to identify the voter, and printed out the voter's ballot. The voter's thumbprint was linked to a computerized record of that voter's identity. Smartmatic created and operated the entire system. *Id.* ¶¶ 10 & 14.

7. A core requirement of the Smartmatic software design ultimately adopted by Dominion for Michigan's elections was the software's ability to hide its manipulation of votes from any audit. As the whistleblower explains:

Chavez was most insistent that Smartmatic design the system in a way that the system could change the vote of each voter without being detected. He wanted the software itself to function in such a manner that if the voter were to place their thumb print or fingerprint on a scanner, then the thumbprint would be tied to a record of the voter's name and identity as having voted, but that voter would not be tracked to the changed vote. He made it clear that the system would have to be setup to not leave any evidence of the changed vote for a specific voter and that there would be no evidence to show and nothing to contradict that the name or the fingerprint or thumb print was going with a changed vote. Smartmatic agreed to create such a system and produced the software and hardware that accomplished that result for President Chavez. *Id.* ¶15.

8. The design and features of the Dominion software do not permit a simple audit to reveal its misallocation, redistribution, or deletion of votes. First, the system's central accumulator does not include a protected real-time audit log that maintains the date and time stamps of all significant election events. Key components of the system utilize unprotected logs.

Essentially this allows an unauthorized user the opportunity to arbitrarily add, modify, or remove log entries, causing the machine to log election events that do not reflect actual voting tabulations—or more specifically, do not reflect the actual votes of or the will of the people. *See* Ex. 107, August 24, 2020 Declaration of Harri Hursti, ¶¶45-48.

9. Indeed, under the professional standards within the industry in auditing and forensic analysis, when a log is unprotected, and can be altered, it can no longer serve the purpose of an audit log. There is incontrovertible physical evidence that the standards of physical security of the voting machines and the software were breached, and machines were connected to the internet in violation of professional standards, which violates federal election law on the preservation of evidence.

10. In deciding to award Dominion a \$25 million, ten-year contract (to a Dominion project team led by Kelly Garrett, former Deputy Director of the Michigan Democratic Party), and then certifying Dominion software, Michigan officials disregarded all the concerns that caused Dominion software to be rejected by the Texas Board of elections in 2020 because it was deemed vulnerable to undetected and non-auditable manipulation.² An industry expert, Dr. Andrew Appel, Princeton Professor of Computer Science and Election Security Expert has recently observed, with reference to Dominion Voting machines: "I figured out how to make a slightly different computer program that just before the polls were closed, it switches some votes around from one candidate to another. I wrote that computer program into a memory chip and now to hack a voting machine you just need 7 minutes alone with it a screwdriver."³

² See Ex. 8, State of Michigan Enterprise Procurement, Dept. of Technology, Management and Budget Contract No. 071B7700117, between State of Michigan and Dominion Voting Systems (“Dominion Michigan Contract”). *See also* Ex. 9 (Texas Secretary of State decision).

³ Andrew W. Appel, *et al.*, “Ballot Marking Devices (BMDs) Cannot Assure the Will of the Voters” at (Dec. 27, 2019), attached hereto as Exhibit 2 (“Appel Study”).

11. Plaintiff's expert witness, Russell James Ramsland, Jr. (Exh. 101, "Ramsland Affidavit"), has concluded that Dominion alone is responsible for the injection, or fabrication, of 289,866 illegal votes in Michigan, that must be disregarded. This is almost twice the number of Mr. Biden's purported lead in the Michigan vote (without consideration of the additional illegal, ineligible, duplicate or fictitious votes due to the unlawful conduct outlined below), and thus by itself is grounds to set aside the 2020 General Election and grant the declaratory and injunctive relief requested herein.

12. In addition to the Dominion computer fraud, this Complaint identifies several additional categories of "traditional" voting fraud and Michigan Election Code violations, supplemented by healthy doses of harassment, intimidation, discrimination, abuse and even physical removal of Republican poll challengers to eliminate any semblance of transparency, objectivity or fairness from the vote counting process. While this illegal conduct by election workers and state, county and city employees in concert with Dominion, even if considered in isolation, the following three categories of systematic violations of the Michigan Election Code cast significant doubt on the results of the election and mandate this Court to set aside the 2020 General Election and grant the declaratory and injunctive relief requested herein.

Fact Witness Testimony of Voting Fraud & Other Illegal Conduct

13. There were three broad categories of illegal conduct by election workers in collaboration with other employee state, county and/or city employees and Democratic poll watchers and activists. First, to facilitate and cover-up the voting fraud and counting of fraudulent, illegal or ineligible voters, election workers:

- A. Denied Republican election challengers access to the TCF Center, where all Wayne County, Michigan ballots were processed and counted;
- B. Denied Republican poll watchers at the TCF Center meaningful access to view ballot handling, processing, or counting and locked credentialed challengers out

of the counting room so they could not observe the process, during which time tens of thousands of ballots were processed;

- C. Engaged in a systematic pattern of harassment, intimidation and even physical removal of Republican election challengers or locking them out of the TCF Center;
- D. Systematically discriminated against Republican poll watchers and favored Democratic poll watchers;
- E. Ignored or refused to record Republican challenges to the violations outlined herein;
- F. Refused to permit Republican poll challengers to observe ballot duplication and other instances where they allowed ballots to be duplicated by hand without allowing poll challengers to check if the duplication was accurate⁴;
- G. Unlawfully coached voters to vote for Joe Biden and to vote a straight Democrat ballot, including by going over to the voting booths with voters in order to watch them vote and coach them for whom to vote;
- H. As a result of the above, Democratic election challengers outnumbered Republicans by 2:1 or 3:1 (or sometimes 2:0 at voting machines); and
- I. Collaborated with Michigan State, Wayne County and/or City of Detroit employees (including police) in the above unlawful and discriminatory behavior.

14. Second, election workers illegally forged, added, removed or otherwise altered information on ballots, the Qualified Voter File (QVF) and Other Voting Records, including:

- A. Fraudulently adding “tens of thousands” of new ballots and/or new voters to QVF in two separate batches on November 4, 2020, all or nearly all of which were votes for Joe Biden;
- B. Forging voter information and fraudulently adding new voters to the QVF Voters, in particular, e.g., when a voter’s name could not be found, the election worker assigned the ballot to a random name already in the QVF to a person who had not voted and recorded these new voters as having a birthdate of 1/1/1900;
- C. Changing dates on absentee ballots received after 8:00 PM Election Day deadline

⁴ On October 29, 2020 the State of Michigan in the Court of Claims, Detroit, Hon. Cynthia D. Stephens entered a Stipulated Order that related to guidance for Observers, which made clear that Observers were to be in closer proximity to election workers to have a challenge heard. Otherwise they should remain 6 feet apart. (See Case No. Case No. 20-000211-MZ)

to indicate that such ballots were received before the deadline;

- D. Changing Votes for Trump and other Republican candidates; and
- E. Added votes to “undervote” ballots and removing votes from “Over-Votes”.

15. Third, election workers committed several additional categories of violations of the Michigan Election Code to enable them to accept and count other illegal, ineligible or duplicate ballots, or reject Trump or Republican ballots, including:

- A. Permitting illegal double voting by persons that had voted by absentee ballot and in person;
- B. Counting ineligible ballots – and in many cases – multiple times;
- C. Counting ballots without signatures, or without attempting to match signatures, and ballots without postmarks, pursuant to direct instructions from Defendants;
- D. Counting “spoiled” ballots;
- E. Systematic violations of ballot secrecy requirements;
- F. Unsecured ballots arrived at the TCF Center loading garage, not in sealed ballot boxes, without any chain of custody, and without envelopes, after the 8:00 PM Election Day deadline, in particular, the tens of thousands of ballots that arrived on November 4, 2020; and
- G. Accepting and counting ballots from deceased voters.

Expert Witness Testimony Regarding Voting Fraud

16. In addition to the above fact witnesses, this Complaint presents expert witness testimony demonstrating that several hundred thousand illegal, ineligible, duplicate or purely fictitious votes must be thrown out, in particular:

- A. A report from Russell Ramsland, Jr. showing the “physical impossibility” of nearly 385,000 votes injected by four precincts/township on November 4, 2020, that resulted in the counting of nearly 290,000 more ballots processed than available capacity (which is based on statistical analysis that is independent of his analysis of Dominion’s flaws), a result which he determined to be “physically impossible” (*see* Ex. 104 ¶14);
- B. A report from Dr. Louis Bouchard finding to be “statistically impossible” the widely reported “jump” in Biden’s vote tally of 141,257 votes during a single time interval

(11:31:48 on November 4), *see* Ex. 110 at 28);

- C. A report from Dr. William Briggs, showing that there were approximately 60,000 absentee ballots listed as “unreturned” by voters that either never requested them, or that requested and returned their ballots. (*See* Ex. 101);
- D. A report from Dr. Eric Quinell analyzing the anomalous turnout figures in Wayne and Oakland Counties showing that Biden gained nearly 100% and frequently more than 100% of all “new” voters in certain townships/precincts over 2016, and thus indicated that nearly 87,000 anomalous and likely fraudulent votes came from these precincts. (*See* Ex. 102);
- E. A report from Dr. Stanley Young that looked at the entire State of Michigan and identified nine “outlier” counties that had both significantly increased turnout in 2020 vs. 2016 almost all of which went to Biden totaling over 190,000 suspect “excess” Biden votes (whereas turnout in Michigan’s 74 other counties was flat). (*See* Ex. 110);
- F. A report from Robert Wilgus analyzing the absentee ballot data that identified a number of significant anomalies, in particular, 224,525 absentee ballot applications that were both sent and returned on the same day, 288,783 absentee ballots that were sent and returned on the same day, and 78,312 that had the same date for all (*i.e.*, the absentee application was sent/returned on same day as the absentee ballot itself was sent/returned), as well as an additional 217,271 ballots for which there was no return date (*i.e.*, consistent with eyewitness testimony described in Section II below). (*See* Ex. 110);
- G. A report from Thomas Davis showing that in 2020 for larger Michigan counties like Monroe and Oakland Counties, that not only was there a higher percentage of Democrat than Republican absentee voters in every single one of hundreds of precinct, but that the Democrat advantage (*i.e.*, the difference in the percentage of Democrat vs. Republican absentee voter) was consistent (+25%-30%) and the differences were highly correlated, whereas in 2016 the differences were uncorrelated. (*See* Ex. 110); and
- H. A report by an affiant whose name must be redacted to protect his safety who concludes that “the results of the analysis and the pattern seen in the included graph strongly suggest a systemic, system-wide algorithm was enacted by an outside agent, causing the results of Michigan’s vote tallies to be inflated by somewhere between three and five point six percentage points. Statistical estimating yields that in Michigan, the best estimate of the number of impacted votes is 162,400. However, a 95% confidence interval calculation yields that as many as 276,080 votes may have been impacted.” (*See* Ex. 111 ¶13).

17. As explained and demonstrated in the accompanying redacted declaration of a former electronic intelligence analyst with 305th Military Intelligence with experience gathering

SAM missile system electronic intelligence, the Dominion software was accessed by agents acting on behalf of China and Iran in order to monitor and manipulate elections, including the most recent US general election in 2020. (See Attached hereto as Ex. 105, copy of redacted witness affidavit, November 23, 2020).

18. These and other “irregularities” provide this Court grounds to set aside the results of the 2020 General Election and provide the declaratory and injunctive relief requested herein.

JURISDICTION AND VENUE

19. This Court has subject matter under 28 U.S.C. § 1331 which provides, “The district courts shall have original jurisdiction of all civil actions arising under the Constitution, laws, or treaties of the United States.”

20. This Court also has subject matter jurisdiction under 28 U.S.C. § 1343 because this action involves a federal election for President of the United States. “A significant departure from the legislative scheme for appointing Presidential electors presents a federal constitutional question.” *Bush v. Gore*, 531 U.S. 98, 113 (2000) (Rehnquist, C.J., concurring); *Smiley v. Holm*, 285 U.S. 355, 365 (1932).

21. The jurisdiction of the Court to grant declaratory relief is conferred by 28 U.S.C. §§ 2201 and 2202 and by Rule 57, Fed. R. Civ. P.

22. This Court has jurisdiction over the related Michigan constitutional claims and state-law claims under 28 U.S.C. § 1367. Venue is proper because a substantial part of the events or omissions giving rise to the claim occurred in the Eastern District. 28 U.S.C. § 1391(b) & (c).

23. Because the United States Constitution reserves for state legislatures the power to set the time, place, and manner of holding elections for Congress and the President, state

executive officers, including but not limited to Secretary Benson, have no authority to unilaterally exercise that power, much less flout existing legislation.

THE PARTIES

24. Each of the following Plaintiffs are registered Michigan voters and nominees of the Republican Party to be a Presidential Elector on behalf of the State of Michigan: Timothy King, a resident of Washtenaw County, Michigan; Marian Ellen Sheridan, a resident of Oakland County, Michigan; and, John Earl Haggard, a resident of Charlevoix, Michigan;

25. Each of these Plaintiffs has standing to bring this action as voters and as candidates for the office of Elector under MCL §§ 168.42 & 168.43 (election procedures for Michigan electors). As such, Presidential Electors “have a cognizable interest in ensuring that the final vote tally reflects the legally valid votes cast,” as “[a]n inaccurate vote tally is a concrete and particularized injury to candidates such as the Electors.” *Carson v. Simon*, 978 F.3d 1051, 1057 (8th Cir. 2020) (affirming that Presidential Electors have Article III and prudential standing to challenge actions of Secretary of State in implementing or modifying State election laws); *see also McPherson v. Blacker*, 146 U.S. 1, 27 (1892); *Bush v. Palm Beach Cty. Canvassing Bd.*, 531 U.S. 70, 76 (2000) (per curiam). Each brings this action to set aside and decertify the election results for the Office of President of the United States that were certified by the Michigan Secretary of State on November 23, 2020. The certified results showed a plurality of 154,188 votes in favor of former Vice-President Joe Biden over President Trump.

26. Plaintiff James Ritchard is a registered voter residing in Oceana County. He is the Republican Party Chairman of Oceana County.

27. Plaintiff James David Hooper is a registered voter residing in Wayne County. He is the Republican Party Chairman for the Wayne County Eleventh District.

28. Plaintiff Daren Wade Ribingh is a registered voter residing in Antrim County. He

is the Republican Party Chairman of Antrim County.

29. Defendant Gretchen Whitmer (Governor of Michigan) is named herein in her official capacity as Governor of the State of Michigan.

30. Defendant Jocelyn Benson (“Secretary Benson”) is named as a defendant in her official capacity as Michigan’s Secretary of State. Jocelyn Benson is the “chief elections officer” responsible for overseeing the conduct of Michigan elections. MCL § 168.21 (“The secretary of state shall be the chief election officer of the state and shall have supervisory control over local election officials in the performance of their duties under the provisions of this act.”); MCL § 168.31(1)(a) (the “Secretary of State shall ... issue instructions and promulgate rules ... for the conduct of elections and registrations in accordance with the laws of this state”). Local election officials must follow Secretary Benson’s instructions regarding the conduct of elections. Michigan law provides that Secretary Benson “[a]dvice and direct local election officials as to the proper methods of conducting elections.” MCL § 168.31(1)(b). *See also Hare v. Berrien Co Bd. of Election*, 129 N.W.2d 864 (Mich. 1964); *Davis v. Secretary of State*, 2020 Mich. App. LEXIS 6128, at *9 (Mich. Ct. App. Sep. 16, 2020). Secretary Benson is responsible for assuring Michigan’s local election officials conduct elections in a fair, just, and lawful manner. *See* MCL 168.21; 168.31; 168.32. *See also League of Women Voters of Michigan v. Secretary of State*, 2020 Mich. App. LEXIS 709, *3 (Mich. Ct. App. Jan. 27, 2020); *Citizens Protecting Michigan's Constitution v. Secretary of State*, 922 N.W.2d 404 (Mich. Ct. App. 2018), *aff’d* 921 N.W.2d 247 (Mich. 2018); *Fitzpatrick v. Secretary of State*, 440 N.W.2d 45 (Mich. Ct. App. 1989).

31. Defendant Michigan Board of State Canvassers is “responsible for approv[ing] voting equipment for use in the state, certify[ing] the result of elections held statewide”

Michigan Election Officials' Manual, p. 4. *See also* MCL 168.841, *et seq.* On November 23, 2020, the Board of State Canvassers certified the results of the 2020 election finding that Joe Biden had received 154,188 more votes than President Donald Trump.

STATEMENT OF FACTS

32. Plaintiffs bring this action under 42 U.S.C. §§ 1983 and 1988, and under MCL 168.861, to remedy deprivations of rights, privileges, or immunities secured by the Constitution and laws of the United States and to contest the election results, and the corollary under the Michigan Constitution.

33. The United States Constitution sets forth the authority to regulate federal elections. With respect to congressional elections, the Constitution provides.

34. The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by Law make or alter such Regulations, except as to the Places of choosing Senators. U.S. CONST. art. I, § 4 (“Elections Clause”).

35. With respect to the appointment of presidential electors, the Constitution provides: Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. CONST. art. II, § 1 (“Electors Clause”). Under the Michigan Election Code, the Electors of the President and Vice President for the State of Michigan are elected by each political party at their state convention in each Presidential election year. *See* MCL §§ 168.42 & 168.43.

36. Neither Defendant is a “Legislature” as required under the Elections Clause or

Electors Clause. The Legislature is “the representative body which ma[kes] the laws of the people.” *Smiley*, 285 U.S. 365. Regulations of congressional and presidential elections, thus, “must be in accordance with the method which the state has prescribed for legislative enactments.” *Id.* at 367; *see also Ariz. State Legislature v. Ariz. Indep. Redistricting Comm’n*, 576 U.S. 787, 135 S. Ct. 2652, 2668 (U.S. 2015).

37. While the Elections Clause “was not adopted to diminish a State's authority to determine its own lawmaking processes,” *Ariz. State Legislature*, 135 S. Ct. at 2677, it does hold states accountable to their chosen processes when it comes to regulating federal elections, *id.* at 2668. “A significant departure from the legislative scheme for appointing Presidential electors presents a federal constitutional question.” *Bush*, 531 U.S. at 113 (Rehnquist, C.J., concurring); *Smiley*, 285 U.S. at 365.

38. Plaintiffs bring this action to vindicate their constitutional rights to a free and fair election ensuring the accuracy and integrity of the process pursuant to the Michigan Constitution, art. 2, sec. 4, par. 1(h), which states all Michigan citizens have:

The right to have the results of statewide elections audited, in such a manner as prescribed by law, to ensure the accuracy and integrity of elections.

39. The Mich. Const., art. 2, sec. 4, further states, “All rights set forth in this subsection shall be self-executing. This subsection shall be liberally construed in favor of voters' rights in order to effectuate its purposes.”

40. Based upon all the allegations of fraud, statutory violations, and other misconduct, as stated herein and in the attached affidavits, it is necessary to enjoin the certification of the election results pending a full investigation and court hearing, and to order an independent audit of the November 3, 2020 election to ensure the accuracy and integrity of the election.

I. LEGAL BACKGROUND: RELEVANT PROVISIONS OF THE MICHIGAN ELECTION CODE AND ELECTION CANVASSING PROCEDURES.

A. Michigan law requires Secretary Benson and local election officials to provide designated challengers a meaningful opportunity to observe the conduct of elections.

41. Challengers representing a political party, candidate, or organization interested in the outcome of the election provide a critical role in protecting the integrity of elections including the prevention of voter fraud and other conduct (whether maliciously undertaken or by incompetence) that could affect the conduct of the election. *See* MCL § 168.730-738.

42. Michigan requires Secretary of State Benson, local election authorities, and state and county canvassing boards to provide challengers the opportunity to meaningfully participate in, and oversee, the conduct of Michigan elections and the counting of ballots.

43. Michigan's election code provides that challengers shall have the following rights and responsibilities:

- a. An election challenger shall be provided a space within a polling place where they can observe the election procedure and each person applying to vote. MCL § 168.733(1).
- b. An election challenger must be allowed opportunity to inspect poll books as ballots are issued to electors and witness the electors' names being entered in the poll book. MCL § 168.733(1)(a).
- c. An election Challenger must be allowed to observe the manner in which the duties of the election inspectors are being performed. MCL § 168.733(1)(b).
- d. An election challenger is authorized to challenge the voting rights of a person who the challenger has good reason to believe is not a registered elector. MCL § 168.733(1)(c).
- e. An election challenger is authorized to challenge an election procedure that is not being properly performed. MCL § 168.733(1)(d).
- f. An election challenger may bring to an election inspector's attention any of the following: (1) improper handling of a ballot by an elector or election inspector; (2) a violation of a regulation made by the board of election inspectors with regard to the time in which an elector may remain in the

polling place; (3) campaigning and fundraising being performed by an election inspector or other person covered by MCL § 168.744; and/or (4) any other violation of election law or other prescribed election procedure. MCL § 168.733(1)(e).

- g. An election challenger may remain present during the canvass of votes and until the statement of returns is duly signed and made. MCL § 168.733(1)(f).
- h. An election challenger may examine each ballot as it is being counted. MCL § 168.733(1)(g).
- i. An election challenger may keep records of votes cast and other election procedures as the challenger desires. MCL § 168.733(1)(h).
- j. An election challenger may observe the recording of absent voter ballots on voting machines. MCL § 168.733(1)(i).

44. The Michigan Legislature adopted these provisions to prevent and deter vote fraud, require the conduct of Michigan elections to be transparent, and to assure public confidence in the outcome of the election no matter how close the final ballot tally may be.

45. Michigan values the important role challengers perform in assuring the transparency and integrity of elections. For example, Michigan law provides it is a felony punishable by up to two years in state prison for any person to threaten or intimidate a challenger who is performing any activity described in Michigan law. MCL § 168.734(4). It is a felony punishable by up to two years in state prison for any person to prevent the presence of a challenger exercising their rights or to fail to provide a challenger with “conveniences for the performance of the[ir] duties.” MCL 168.734.

46. The responsibilities of challengers are established by Michigan statute. MCL § 168.730 states:

- (l) At an election, a political party or [an organization] interested in preserving the purity of elections and in guarding against the abuse of the elective franchise, may designate challengers as provided in this act. Except as otherwise provided in this act, a political party [or interested organization] may designate not more than 2 challengers to serve in a precinct at any 1 time. A

political party [or interested organization] may designate not more than 1 challenger to serve at each counting board.

- (2) A challenger shall be a registered elector of this state.... A candidate for the office of delegate to a county convention may serve as a challenger in a precinct other than the 1 in which he or she is a candidate....
- (3) A challenger may be designated to serve in more than 1 precinct. The political party [or interested organization] shall indicate which precincts the challenger will serve when designating challengers under subsection (1). If more than 1 challenger of a political party [or interested organization] is serving in a precinct at any 1 time, only 1 of the challengers has the authority to initiate a challenge at any given time. The challengers shall indicate to the board of election inspectors which of the 2 will have this authority. The challengers may change this authority and shall indicate the change to the board of election inspectors.

47. Secretary Benson and Wayne County violated these provisions of Michigan law and violated the constitutional rights of Michigan citizens and voters when they did not conduct this general election in conformity with Michigan law and the United States Constitution.

B. The canvassing process in Michigan.

48. Michigan has entrusted the conduct of elections to three categories of individuals; a “board of inspectors,” a “board of county canvassers,” and the “board of state canvassers.”

49. The board of inspectors, among its other duties, canvasses the ballots and compares the ballots to the poll books. *See* MCL § 168.801. “Such canvass shall be public and the doors to the polling places and at least 1 door in the building housing the polling places and giving ready access to them shall not be locked during such canvas.” *Id.* The members of the board of inspectors (one from each party) are required to seal the ballots and election equipment and certify the statement of returns and tally sheets and deliver the statement of returns and tally sheet to the township or city clerk, who shall deliver it to the probate court judge, who will then deliver the statement of returns and tally sheet to the “board of county canvassers.” MCL § 168.809. “All election returns, including poll lists, statements, tally sheets, *absent voters*’

return envelopes bearing the statement required [to cast an absentee ballot] ... must be carefully preserved.” MCL § 810a and § 168.811 (emphasis added).

50. After the board of inspectors completes its duties, the board of county canvassers is to meet at the county clerk’s office “no later than 9 AM on the Thursday after” the election. November 5, 2020 is the date for the meeting. MCL 168.821. The board of county canvassers has power to summon and open ballot boxes, correct errors, and summon election inspectors to appear. Among other duties and responsibilities, the board of county canvassers shall do the following provided in MCL 168.823(3).

51. The board of county canvassers shall correct obvious mathematical errors in the tallies and returns.

The board of county canvassers may, if necessary for a proper determination, summon the election inspectors before them, and require them to count any ballots that the election inspectors failed to count, to make correct returns in case, in the judgment of the board of county canvassers after examining the returns, poll lists, or tally sheets, the returns already made are incorrect or incomplete, and the board of county canvassers shall canvass the votes from the corrected returns. In the alternative to summoning the election inspectors before them, the board of county canvassers may designate staff members from the county clerk’s office to count any ballots that the election inspectors failed to count, to make correct returns in case, in the judgment of the board of county canvassers after examining the returns, poll lists, or tally sheets, the returns already made are incorrect or incomplete, and the board of county canvassers shall canvass the votes from the corrected returns. When the examination of the papers is completed, or the ballots have been counted, they shall be returned to the ballot boxes or delivered to the persons entitled by law to their custody, and the boxes shall be locked and sealed and delivered to the legal custodians. The county board of canvassers shall “conclude the canvass at the earliest possible time and in every case no later than the fourteenth day after the election,” which is November 17. MCL 168.822(1). But, “[i]f the board of county canvassers fails to certify the results of any election for any officer or proposition by the fourteenth day after the election as provided, the board of county canvassers shall immediately deliver to the secretary of the board of state canvassers all records and other information pertaining to the election. The board of state canvassers shall meet immediately and make the necessary determinations and certify the results within the 10 days immediately following the receipt of the records from the board of county canvassers.” MCL 168.822(2).

52. The Michigan board of state canvassers then meets at the Secretary of State's office the twentieth day after the election and announces its determination of the canvass "not later than the fortieth day after the election." For this general election, that is November 23 and December 13. MCL 168.842. There is provision for the Secretary of State to direct an expedited canvass of the returns for the election of electors for President and Vice President.

53. The county board of canvassers shall "conclude the canvass at the earliest possible time and in every case no later than the fourteenth day after the election," which is November 17. MCL 168.822(1). But, "[i]f the board of county canvassers fails to certify the results of any election for any officer or proposition by the fourteenth day after the election as provided, the board of county canvassers shall immediately deliver to the secretary of the board of state canvassers all records and other information pertaining to the election. The board of state canvassers shall meet immediately and make the necessary determinations and certify the results within the 10 days immediately following the receipt of the records from the board of county canvassers." MCL 168.822(2).

54. The federal provisions governing the appointment of electors to the Electoral College, 3 U.S.C. §§ 1-18, require Michigan Governor Whitmer to prepare a Certificate of Ascertainment by December 14, the date the Electoral College meets.

55. The United States Code (3 U.S.C. § 5) provides that if election results are contested in any state, and if the state, prior to election day, has enacted procedures to settle controversies or contests over electors and electoral votes, and if these procedures have been applied, and the results have been determined six days before the electors' meetings, then these results are considered to be conclusive and will apply in the counting of the electoral votes. This date (the "Safe Harbor" deadline) falls on December 8, 2020. The governor of any state

where there was a contest, and in which the contest was decided according to established state procedures, is required (by 3 U.S.C. § 6) to send a certificate describing the form and manner by which the determination was made to the Archivist as soon as practicable.

56. The members of the board of state canvassers are Democrat Jeannette Bradshaw, Republican Aaron Van Langeveide, Republican Norman Shinkle, and Democrat Julie Matuzak. Jeannette Bradshaw is the Board Chairperson. The members of the Wayne County board of county canvassers are Republican Monica Palmer, Democrat Jonathan Kinloch, Republican William Hartmann, and Democrat Allen Wilson. Monica Palmer is the Board Chairperson.

57. More than one hundred credentialed election challengers provided sworn affidavits. These affidavits stated, among other matters, that these credentialed challengers were denied a meaningful opportunity to review election officials in Wayne County handling ballots, processing absent voter ballots, validating the legitimacy of absent voter ballots, and the general conduct of the election and ballot counting. *See* Exhibit 1 (affidavits of election challengers).

II. FACTUAL ALLEGATIONS AND FACT WITNESS TESTIMONY REGARDING MICHIGAN ELECTION CODE VIOLATIONS AND OTHER UNLAWFUL CONDUCT BY ELECTION WORKERS AND MICHIGAN STATE, WAYNE COUNTY AND/OR CITY OF DETROIT EMPLOYEES.

58. Wayne County used the TCF Center in downtown Detroit to consolidate, collect, and tabulate all of the ballots for the County. The TCF Center was the only facility within Wayne County authorized to count the ballots.

A. Republican Election Challengers Were Denied Opportunity to Meaningfully Observe the Processing and Counting of Ballots.

59. There is a difference between a ballot and a vote. A ballot is a piece of paper. A vote is a ballot that has been completed by a citizen registered to vote who has the right to cast a vote and has done so in compliance with Michigan election law by, among other things, verifying their identity and casting the ballot on or before Election Day. It is the task of

Secretary Benson and Michigan election officials to assure that only ballots cast by individuals entitled to cast a vote in the election are counted and to make sure that all ballots cast by lawful voters are counted and the election is conducted in accordance with Michigan's Election Code uniformly throughout Michigan.

60. Challengers provide the transparency and accountability to assure ballots are lawfully cast and counted as provided in Michigan's Election Code and voters can be confident the outcome of the election was honestly and fairly determined by eligible voters.

61. Wayne County excluded certified challengers from meaningfully observing the conduct of the election in violation of the Michigan Election Code. This allowed a substantial number of ineligible ballots to be counted, as outlined in Section B. below. These systematic Michigan Election Code violations, and the disparate treatment of Republican vs. Democratic poll challengers, also violated the Equal Protection Clause and other provisions of the U.S. Constitution as detailed herein. The following affidavits describe the specifics that were observed. This conduct was pervasive in Wayne County as attested to in the affidavits attached at Ex. 3.

1. Republican Observers Denied Access to TCF Center

62. Many individuals designated as challengers to observe the conduct of the election were denied meaningful opportunity to observe the conduct of the election. For example, challengers designated by the Republican Party or Republican candidates were denied access to the TCF Center (formerly called Cobo Hall) ballot counting location in Detroit while Democratic challengers were allowed access. Exhibit 3 (Deluca aff. ¶¶7-9, 16-18; Langer aff. ¶3; Papsdorf aff. ¶3; Frego aff. ¶9; Downing aff. ¶¶2-9, 11, 15, 22; Sankey aff. ¶¶5-8; Ostin aff. ¶¶5-7; Cavaliere aff. ¶3; Cassin aff. ¶4; Rose aff. ¶18; Zimmerman aff. ¶8; Langer aff. ¶3; Poplawski aff. ¶3; Henderson aff. ¶7; Fuqua-Frey aff. ¶5; Ungar aff. ¶4; Eilf aff. ¶¶9, 17; Jeup aff. ¶¶6-7;

Tietz aff. ¶¶9-18; McCall aff. ¶¶5-6; Arnoldy aff. ¶¶5, 8-9 (unlimited members of the media were also allowed inside regardless of COVID restrictions while Republican challengers were excluded)).

63. Many challengers stated that Republican challengers who had been admitted to the TCF Center but who left were not allowed to return. *Id.* (Bomer aff. ¶16; Paschke aff. ¶4; Schneider aff., p. 2; Arnoldy aff. ¶6; Boller aff. ¶¶13-15 (removed and not allowed to serve as challenger); Kilunen aff. ¶7; Gorman aff. ¶¶6-8; Wirsing aff., p. 1; Rose aff. ¶19; Krause aff. ¶¶9, 11; Roush aff. ¶16; M. Seely aff. ¶6; Fracassi aff. ¶6; Whitmore aff. ¶5). Furthermore, Republican challengers who left the TCF Center were not allowed to be replaced by other Republican challengers while Democratic challengers were replaced.

2. Disparate and Discriminatory Treatment of Republican vs. Democratic Challengers.

64. As a result of Republican challengers not being admitted or re-admitted, while Democratic challengers were freely admitted, there were many more Democratic challengers allowed to observe the processing and counting of absent voter ballots than Republican challengers. *Id.* (Helminen aff. ¶12 (Democratic challengers outnumbered Republican challengers by at least a two-to-one ratio); Daavettila aff., p. 2 (ten times as many Democratic challengers as Republican); A. Seely aff. ¶19; Schneider aff., p. 2; Wirsing aff., p. 1; Rauf aff. ¶21; Roush aff. ¶¶16-17; Topini aff. ¶4).

65. Many challengers testified that election officials strictly and exactingly enforced a six-foot distancing rule for Republican challengers but not for Democratic challengers. *Id.* (Paschke aff. ¶4; Wirsing aff., p. 1; Montie aff. ¶4; Harris aff. ¶3; Krause aff. ¶7; Vaupel aff. ¶5; Russel aff. ¶7; Duus aff. ¶9; Topini aff. ¶6). As a result, Republican challengers were not allowed to meaningfully observe the ballot counting process.

3. Republican Challengers Not Permitted to View Ballot Handling, Processing or Counting.

66. Many challengers testified that their ability to view the handling, processing, and counting of ballots was physically and intentionally blocked by election officials. *Id.* (A. Seely aff. ¶15; Miller aff. ¶¶13-14; Pennala aff. ¶4; Tyson aff. ¶¶12- 13, 16; Ballew aff. ¶8; Schornak aff. ¶4; Williamson aff. ¶¶3, 6; Steffans aff. ¶¶15-16, 23- 24; Zaplitny aff. ¶15; Sawyer aff. ¶5; Cassin aff. ¶9; Atkins aff. ¶3; Krause aff. ¶5; Sherer aff. ¶¶15, 24; Basler aff. ¶¶7-8; Early aff. ¶7; Posch aff. ¶7; Chopjian aff. ¶11; Shock aff. ¶7; Schmidt aff. ¶¶7-8; M. Seely aff. ¶4; Topini aff. ¶8).

67. At least three challengers said they were physically pushed away from counting tables by election officials to a distance that was too far to observe the counting. *Id.* (Helminen aff. ¶4; Modlin aff. ¶¶4, 6; Sitek aff. ¶4). Challenger Glen Sitek reported that he was pushed twice by an election worker, the second time in the presence of police officers. *Id.* (Sitek aff. ¶4). Sitek filed a police complaint. *Id.*

68. Challenger Pauline Montie stated that she was prevented from viewing the computer monitor because election workers kept pushing it further away and made her stand back away from the table. *Id.* (Montie aff. ¶¶4-7). When Pauline Montie told an election worker that she was not able to see the monitor because they pushed it farther away from her, the election worker responded, “too bad.” *Id.* ¶8.

69. Many challengers witnessed Wayne County election officials covering the windows of the TCF Center ballot counting center so that observers could not observe the ballot counting process. *Id.* (A. Seely aff. ¶¶9, 18; Helminen aff. ¶¶9, 12; Deluca aff. ¶13; Steffans aff. ¶22; Frego aff. ¶11; Downing aff. ¶21; Sankey aff. ¶14; Daavettila aff., p. 4; Zimmerman aff. ¶10; Krause aff. ¶12; Sherer aff. ¶22; Johnson aff. ¶7; Posch aff. ¶10; Rauf aff. ¶23; Luke aff., p.

1; M. Seely aff. ¶8; Zelasko aff. ¶8; Ungar aff. ¶12; Storm aff. ¶7; Fracassi aff. ¶8; Eilf aff. ¶25; McCall aff. ¶9).

4. Harassment, Intimidation & Removal of Republican Challengers

70. Challengers testified that they were intimidated, threatened, and harassed by election officials during the ballot processing and counting process. *Id.* (Ballew aff. ¶¶7, 9; Gaicobazzi aff. ¶¶12-14 (threatened repeatedly and removed); Schneider aff., p. 1; Piontek aff. ¶11; Steffans aff. ¶26 (intimidation made her feel too afraid to make challenges); Cizmar aff. ¶8(G); Antonie aff. ¶3; Zaplitny aff. ¶20; Moss aff. ¶4; Daavettila aff., pp. 2-3; Tocco aff. ¶¶1-2; Cavaliere ¶3; Kerstein aff. ¶3; Rose aff. ¶16; Zimmerman aff. ¶5; Langer aff. ¶3; Krause aff. ¶4; Sherer aff. ¶24; Vaupel aff. ¶4; Basler aff. ¶8; Russell aff. ¶5; Burton aff. ¶5; Early aff. ¶7; Pannebecker aff. ¶10; Sitek aff. ¶4; Klamer aff. ¶4; Leonard aff. ¶¶6, 15; Posch aff. ¶¶7, 14; Rauf aff. ¶24; Chopjian aff. ¶10; Cooper aff. ¶12; Shock aff. ¶9; Schmidt aff. ¶¶9-10; Duus aff. ¶10; M. Seely aff. ¶4; Storm aff. ¶¶5, 7; DePerno aff. ¶¶5-6; McCall aff. ¶¶5, 13).

71. Articia Bomer was called a “racist name” by an election worker and also harassed by other election workers. *Id.* (Bomer aff. ¶7). Zachary Vaupel reported that an election supervisor called him an “obscene name” and told him not to ask questions about ballot processing and counting. *Id.* (Vaupel aff. ¶4). Kim Tocco was personally intimidated and insulted by election workers. *Id.* (Tocco aff. ¶¶1-2). Qian Schmidt was the target of racist comments and asked, “what gives you the right to be here since you are not American?” *Id.* (Schmidt aff. ¶9).

72. Other challengers were threatened with removal from the counting area if they continued to ask questions about the ballot counting process. *Id.* (A. Seely aff. ¶¶6, 13, 15; Pennala aff. ¶5). Challenger Kathleen Daavettila observed that Democratic challengers distributed a packet of information among themselves entitled, “Tactics to Distract GOP

Challengers.” *Id.* (Daavettila aff., p. 2). An election official told challenger Ulrike Sherer that the election authority had a police SWAT team waiting outside if Republican challengers argued too much. *Id.* (Sherer aff. ¶24). An election worker told challenger Jazmine Early that since “English was not [her] first language...[she] should not be taking part in this process.” *Id.* (Early aff. ¶11).

73. Election officials at the TCF Center in Detroit participated in the intimidation experienced by Republican challengers when election officials would applaud, cheer, and yell whenever a Republican challenger was ejected from the counting area. *Id.* (Helminen aff. ¶9; Pennala aff. ¶5; Ballew aff. ¶9; Piontek aff. ¶11; Papsdorf aff. ¶3; Steffans aff. ¶25; Cizmar aff. ¶8(D); Kilunen aff. ¶5; Daavettila aff., p. 4; Cavaliere aff. ¶3; Cassin aff. ¶10; Langer aff. ¶3; Johnson aff. ¶5; Early aff. ¶13; Klamer aff. ¶8; Posch aff. ¶12; Rauf aff. ¶22; Chopjian aff. ¶13; Shock aff. ¶10).

5. Poll Workers Ignored or Refused to Record Republican Challenges.

74. Unfortunately, this did not happen in Wayne County. Many challengers testified that their challenges to ballots were ignored and disregarded. *Id.* (A. Seely aff. ¶4; Helminen aff. ¶5; Miller aff. ¶¶10-11; Schornak aff. ¶¶9, 15; Piontek aff. ¶6; Daavettila aff., p. 3; Valice aff. ¶2; Sawyer aff. ¶7; Kerstein aff. ¶3; Modlin aff. ¶4; Cassin aff. ¶6; Brigmon aff. ¶5; Sherer aff. ¶11; Early aff. ¶18; Pannebecker aff. ¶9; Vanker aff. ¶5; M. Seely aff. ¶11; Ungar aff. ¶¶16-17; Fracassi aff. ¶4).

75. As an example of challenges being disregarded and ignored, challenger Alexandra Seely stated that at least ten challenges she made were not recorded. *Id.* (A. Seely aff. ¶4). Articia Bomer observed that ballots with votes for Trump were separated from other ballots. *Id.* (Bomer aff. ¶5). Articia Bomer stated, “I witnessed election workers open ballots with Donald Trump votes and respond by rolling their eyes and showing it to other poll workers. I believe

some of these ballots may not have been properly counted.” *Id.* ¶8. Braden Gaicobazzi challenged thirty-five ballots for whom the voter records did not exist in the poll book, but his challenge was ignored and disregarded. *Id.* (Giacobazzi aff. ¶10). When Christopher Schornak attempted to challenge the counting of ballots, an election official told him; “We are not talking to you, you cannot challenge this.” *Id.* (Schornak aff. ¶15). When Stephanie Krause attempted to challenge ballots, an election worker told her that challenges were no longer being accepted because the “rules ‘no longer applied.’” *Id.* (Krause aff. ¶13).

6. Unlawful Ballot Duplication.

76. If a ballot is rejected by a ballot-tabulator machine and cannot be read by the machine, the ballot must be duplicated onto a new ballot. The Michigan Secretary of State has instructed, “If the rejection is due to a false read the ballot must be duplicated by *two election inspectors who have expressed a preference for different political parties.*” Michigan Election Officials’ Manual, ch. 8, p. 6 (emphasis added). Thus, the ballot-duplicating process must be performed by bipartisan teams of election officials. It must also be performed where it can be observed by challengers.

77. But Wayne County prevented many challengers from observing the ballot duplicating process. *Id.* (Miller aff. ¶¶6-8; Steffans aff. ¶¶15-16, 23-24; Mandelbaum aff. ¶6; Sherer aff. ¶¶16-17; Burton aff. ¶7; Drzewiecki aff. ¶7; Klamer aff. ¶9; Chopjian aff. ¶10; Schmidt aff. ¶7; Champagne aff. ¶12; Shinkle aff., p. 1). Challenger John Miller said he was not allowed to observe election workers duplicating a ballot because the “duplication process was personal like voting.” *Id.* (Miller aff. ¶8). Challenger Mary Shinkle stated that she was told by an election worker that she was not allowed to observe a ballot duplication because “if we make a mistake then you would be all over us.” *Id.* (Shinkle aff., p. 1). Another challenger observed election officials making mistakes when duplicating ballots. *Id.* (Piontek aff. ¶9).

78. Many challengers testified that ballot duplication was performed only by Democratic election workers, not bipartisan teams. Exhibit 1 (Pettibone aff. ¶3; Kinney aff., p. 1; Wasilewski aff., p. 1; Schornak aff. ¶¶18-19; Dixon aff., p. 1; Kolanagireddy aff., p. 1; Kordenbrock aff. ¶¶3-4; Seidl aff., p. 1; Kerstein aff. ¶4; Harris aff. ¶3; Sitek aff. ¶4).

7. Democratic Election Challengers Frequently Outnumbered Republican Poll Watchers 2:1 or Even 2:0.

79. Dominion contractor Melissa Carrone testified that there were significantly more Democrats than Republicans at the TCF Center, and that as a result there were “over 20 machines [that] had two democrats judging the ballots-resulting in an unfair process.” Exh. 5 ¶5. Other affiants testified to the fact that Democrats outnumbered Republicans by 2:1 or more *Id.* (Helminon aff. ¶12). Democrats also impersonated Republican poll watchers. *Id.* (Seely aff. ¶19).

8. Collaboration Between Election Workers, City/County Employees, and Democratic Party Challengers and Activists.

80. Affiants testified to systematic and routine collaboration between election workers, Michigan public employees and Democratic election challengers and activists present, in particular to intimidate, harass, distract or remove Republican election watchers. *See, e.g.*, Exh. 1 (Ballow aff. ¶9; Gaicobazzi aff. ¶¶12, 14; Piontek aff. ¶11).

B. Election Workers Fraudulently Forged, Added, Removed or Otherwise Altered Information on Ballots, Qualified Voter List and Other Voting Records.

81. A lawsuit recently filed by the Great Lakes Justice Center (“GLJC”) raises similar allegations of vote fraud and irregularities that occurred in Wayne County. *See* Exhibit 4 (copy of complaint filed in the Circuit Court of Wayne County in *Costantino, et al. v. City of Detroit, et al.*) (“GLJC Complaint”). The allegations and affidavits included in the GLJC Complaint are incorporated by reference in the body of this Complaint.

1. Election Workers Fraudulently Added “Tens of Thousands” of New Ballots and New Voters in the Early Morning and Evening of November 4.

82. The most egregious example of election workers’ fraudulent and illegal behavior concerns two batches of new ballots brought to the TCF Center after the 8:00 PM Election Day deadline. First, at approximately 4:30 AM on November 4, 2020, poll challenger Andrew Sitto observed “tens of thousands of new ballots” being brought into the counting room, and “[u]nlike the other ballots, these boxes were brought in from the rear of the room.” Exh. 4, GLJC Complaint, Exh. C at ¶ 10. Mr. Sitto heard other Republican challengers state that “several vehicles with out-of-state license plates pulled up to the TCF Center a little before 4:30 AM and unloaded boxes of ballots.” *Id.* at ¶ 11. “All ballots sampled that I heard and observed were for Joe Biden.” *Id.* at ¶ 12.

83. A second set of new boxes of ballots arrived at the TCF Center around 9:00 PM on November 4, 2020. According to poll watcher Robert Cushman, these boxes contained “several thousand new ballots.” Exh. 4, GLJC Complaint, Exh. D at ¶ 5. Mr. Cushman noted that “none of the names on the new ballots were on the QVF or the Supplemental Sheets,” *id.* at ¶ 7, and he observed “computer operators at several counting boards manually adding the names and addresses of these thousands of ballots to the QVF system.” *Id.* at ¶ 8. Further, “[e]very ballot was being fraudulently and manually entered into the [QVF], as having been born on January 1, 1990.” *Id.* at ¶ 15. When Mr. Cushman challenged the validity of the votes and the impossibility of each ballot having the same birthday, he “was told that this was the instruction that came down from the Wayne County Clerk’s office.” *Id.* at ¶ 16.

84. Perhaps the most probative evidence comes from Melissa Carone, who was “contracted to do IT work at the TCF Center for the November 3, 2020 election.” Exh. 5, ¶ 1. On November 4, Ms. Carrone testified that there were “two vans that pulled into the garage of

the counting room, one on day shift and one on night shift.” *Id.* ¶8. She thought that the vans were bringing food, however, she “never saw any food coming out of these vans,” and noted the coincidence that “Michigan had discovered over 100,000 more ballots – not even two hours after the last van left.” *Id.* Ms. Carrone witnessed this illegal vote dump, as well as several other violations outlined below.

2. Election Workers Forged and Fraudulently Added Voters to the Qualified Voter List.

85. Many challengers reported that when a voter was not in the poll book, the election officials would enter a new record for that voter with a birth date of January 1, 1900. Exhibit 1 (Gaicobazzi aff. ¶10; Piontek aff. ¶10; Cizmer aff. ¶8(F); Wirsing aff., p. 1; Cassin aff. ¶9; Langer aff. ¶3; Harris aff. ¶3; Brigmon aff. ¶5; Sherer aff. ¶¶10-11; Henderson aff. ¶9; Early ¶16; Klamer aff. ¶13; Shock aff. ¶8; M. Seely aff. ¶9). *See also id.* (Gorman aff. ¶¶23-26; Chopjian aff. ¶12; Ungar aff. ¶15; Valden aff. ¶17). Braden Gaicobazzi reported that a stack of thirty-five ballots was counted even though there was no voter record. *Id.* (Giacobazzi aff. ¶10).

86. The GLJC Complaint alleges the Detroit Election Commission “systematically processed and counted ballots from voters whose name failed to appear in either the Qualified Voter File (QVF) or in the supplemental sheets.” Exh. 4, GLJC Complaint at 3. The GLJC Complaint provides additional witness affidavits detailing the fraudulent conduct of election workers, in particular, that of Zachary Larsen, who served as a Michigan Assistant Attorney General from 2012 through 2020 and was a certified poll challenger at the TCF Center. “Mr. Larsen reviewed the running list of scanned in ballots in the computer system, where it appeared that the voter had already been counted as having voted. An official operating the computer then appeared to assign this ballot to a different voter as he observed a completely different name that was added to the list of voters at the bottom of a running tab of processed ballots on the right side

of the screen.” *Id.* at ¶ 16. Mr. Larsen observed this “practice of assigning names and numbers” to non-eligible voters who did not appear in either the poll book or the supplement poll book. *Id.* at ¶ 17. Moreover, this appeared to be the case for the majority of the voters whose ballots he personally observed being scanned. *Id.*

3. Changing Dates on Absentee Ballots.

87. All absentee ballots that existed were required to be inputted into the QVF system by 9:00 PM on November 3, 2020. This was required to be done in order to have a final list of absentee voters who returned their ballots prior to 8:00 PM on November 3, 2020. In order to have enough time to process the absentee ballots, all polling locations were instructed to collect the absentee ballots from the drop-box once every hour on November 3, 2020.

88. Jessica Connarn is an attorney who was acting as a Republican challenger at the TCF Center in Wayne County. Ex. 6. Jessica Connarn’s affidavit describes how an election poll worker told her that he “was being told to change the date on ballots to reflect that the ballots were received on an earlier date.” *Id.* ¶1. Jessica Connarn also provided a photograph of a note handed to her by the poll worker in which the poll worker indicated she (the poll worker) was instructed to change the date ballots were received. *See id.* Jessica Connarn’s affidavit demonstrates that poll workers in Wayne County were pre-dating absent voter ballots, so that absent voter ballots received after 8:00 PM on Election Day could be counted.

89. Plaintiffs have learned of a United States Postal Service (“USPS”) worker Whistleblower, who on November 4, 2020 told Project Veritas that a supervisor named Johnathan Clarke in Traverse City, Michigan, issued a directive to collect ballots and stamp them as received on November 3, 2020, even though there were not received timely, as required by law: "We were issued a directive this morning to collect any ballots we find in mailboxes, collection boxes, just outgoing mail in general, separate them at the end of the day so that they

could hand stamp them with the previous day's date," the whistleblower stated. "Today is November 4th for clarification."⁵ This is currently under IG Investigation at the U.S. Post Office. According to the Postal worker whistleblower, the ballots are in "express bags" so they could be sent to the USPS distribution center. *Id.*

90. As set forth in the GLJC Complaint and in the Affidavit of Jessy Jacob, an employee of the City of Detroit Elections Department, "on November 4, 2020, I was instructed to improperly pre-date the absentee ballots receive date that were not in the QVF as if they had been received on or before November 3, 2020. I was told to alter the information in the QVF to falsely show that the absentee ballots had been received in time to be valid. She estimates that this was done to thousands of ballots." Exh. 4, GLJC Complaint, Exh. B at ¶ 17.

4. Election Workers Changed Votes for Trump and Other Republican Candidates.

91. Challenger Articia Bomer stated, "I observed a station where election workers were working on scanned ballots that had issues that needed to be manually corrected. I believe some of these workers were changing votes that had been cast for Donald Trump and other Republican candidates." *Id.* (Bomer aff. ¶9). In addition to this eyewitness testimony of election workers manually changing votes for Trump to votes for Biden, there is evidence that Dominion Voting Systems did the same thing on a much larger scale with its Dominion Democracy Suite software. *See generally infra* Section IV.

5. Election Officials Added Votes and Removed Votes from "Over-Votes".

92. Another challenger observed over-votes on ballots being "corrected" so that the ballots could be counted. Exh. 3 (Zaplitny aff. ¶13). At least one challenger observed poll

⁵ <https://townhall.com/tipsheet/bethbaumann/2020/11/04/usps-whistleblower-in-michigan-claims-higher-ups-were-engaging-in-voter-fraud-n2579501>

workers adding marks to a ballot where there was no mark for any candidate. *Id.* (Tyson aff. ¶17).

C. Additional Violations of Michigan Election Code That Caused Ineligible, Illegal or Duplicate Ballots to Be Counted.

1. Illegal Double Voting.

93. At least one election worker “observed a large number of people who came to the satellite location to vote in-person, but they had already applied for an absentee ballot. These people were allowed to vote in-person and were not required to return the mailed absentee ballot or sign an affidavit that the voter lost the mailed absentee ballot.” Exh. 4, GLJC Complaint (Exh. B) Jacob aff. at ¶ 10. This permitted a person to vote in person and also send in his/her absentee ballot, and thereby vote at least twice.

2. Ineligible Ballots Were Counted – Some Multiple Times.

94. Challengers reported that batches of ballots were repeatedly run through the vote tabulation machines. Exh. 3 (Helminen aff. ¶4; Waskilewski aff., p. 1; Mandelbaum aff. ¶5; Rose aff. ¶¶4-14; Sitek aff. ¶3; Posch aff. ¶8; Champagne aff. ¶8). Challenger Patricia Rose stated she observed a stack of about fifty ballots being fed multiple times into a ballot scanner counting machine. *Id.* (Rose aff. ¶¶4-14). Articia Bomer further stated that she witnessed the same group of ballots being rescanned into the counting machine “at least five times.” *Id.* ¶12. Dominion contractor Melissa Carone observed that this was a routine practice at the TCF Center, where she “witnessed countless workers rescanning the batches without discarding them first” – as required under Michigan rules and Dominion’s procedures – “which resulted in ballots being counted 4-5 times” by the “countless” number of election workers. Carone aff. ¶3. When she observed that a computer indicated that it had “a number of over 400 ballots scanned – which means one batch [of 50] was counted over 8 times,” and complained to her Dominion supervisor, she was informed that “we are here to do assist with IT work, not to run their election.” *Id.* at ¶4.

3. Ballots Counted with Ballot Numbers Not Matching Ballot Envelope.

95. Many challengers stated that the ballot number on the ballot did not match the number on the ballot envelope, but when they raised a challenge, those challenges were disregarded and ignored by election officials, not recorded, and the ballots were processed and counted. Exh. 3 (A. Seely aff. ¶15; Wasilewski aff., p. 1; Schornak aff. ¶13; Brunell aff. ¶¶17, 19; Papsdorf aff. ¶3; Spalding aff. ¶¶8, 11; Antonie aff. ¶3; Daavettila aff., p. 3; Atkins aff. ¶3; Harris aff. ¶3; Sherer aff. ¶21; Drzewiecki aff. ¶¶5-6; Klamer aff. ¶4; Rauf aff. ¶¶9-14; Roush aff. ¶¶5-7; Kinney aff. ¶5). For example, when challenger Abbie Helminen raised a challenge that the name on the ballot envelope did not match the name on the voter list, she was told by an election official to “get away”, and that the counting table she was observing had “a different process than other tables.” *Id.* (Helminen aff. ¶5).

4. Election Officials Counted Ineligible Ballots with No Signatures or No Dates or with No Postmark on Ballot Envelope.

96. At least two challengers observed ballots being counted where there was no signature or postmark on the ballot envelope. *Id.* (Brunell aff. ¶¶17, 19; Spalding aff. ¶13; Sherer aff. ¶13). Challenger Anne Vanker observed that “60% or more of [ballot] envelopes [in a batch] bore the same signature on the opened outer envelope.” *Id.* (Vanker aff. ¶5). Challenger William Henderson observed that a counting table of election workers lost eight ballot envelopes. Exhibit 1 (Henderson aff. ¶8). The GLJC Complaint further alleges the Election Commission “instructed election workers to not verify signatures on absentee ballots, to backdate absentee ballots, and to process such ballots regardless of their validity.”

97. Plaintiff Marian Sheridan, who was a poll watcher at TCF Center and is Vice chair of the Michigan Republican Party, led a “team of almost 1200” to review “the voting records of 51,018 registered voters” in Wayne County “who voted for the first time in the

November 3rd election of 2020.” Ex. 20 ¶5. Her team found that 20,300 of those “did not have a ‘ballot requested date’ in Wayne County,” and that “10,620 absentee ballots show a ‘ballot sent date’ 40 days before the election, after August 13th but before September 24.” *Id.* ¶¶8 & 11.

5. Election Officials Counted “Spoiled” Ballots.

98. At least two challengers observed spoiled ballots being counted. *Id.* (Schornak aff. ¶¶6-8; Johnson aff. ¶4). At least one challenger observed a box of provisional ballots being placed in a tabulation box at the TCF Center. Ex. 1 (Cizmar aff. ¶5).

6. Systematic Violations of Ballot Secrecy Requirements.

99. Affiant Larsen identified a consistent practice whereby election officials would remove ballots from the “secrecy sleeve” or peek into the envelopes, visually inspect the ballots, and based on this visual inspection of the ballot (and thereby identify the votes cast), determine whether to “place the ballot back in its envelope and into a ‘problem ballots’ box that required additional attention to determine whether they would be processed and counted.” Ex. 4, GLJC Complaint, Ex. A at ¶14. Mr. Larsen also observed that some ballots arriving without any secrecy sleeve at all were counted after visual inspection, whereas many ballots without a secrecy sleeve were placed in the “problem ballots” box. *Id.* at ¶¶21-22. “So the differentiation among these ballots despite both ballots arriving in secrecy sleeves was perplexing and again raised concerns that some ballots were being marked as ‘problem ballots’ based on who the person had voted for rather on any legitimate concern about the ability to count and process the ballot appropriately.” *Id.* at ¶24.

7. Election Workers Accepted Unsecured Ballots, without Chain of Custody, after 8:00 PM Election Day Deadline.

100. Poll challengers observed two batches of new ballots brought to the TCF Center after the 8:00 PM Election Day deadline, as detailed in the GLJC Complaint and Section II.B.1.

Affiant Daniel Gustafson further observed that these batches of ballots “were delivered to the TCF Center in what appeared to be mail bins with open tops.” Ex. 4, GLJC Complaint, Ex. E at ¶4. Mr. Gustafson further observed that these bins and containers “did not have lids, were not sealed, and did not have the capability of having a metal seal,” *id.* at ¶5, nor were they “marked or identified in any way to indicated their source of origin.” *Id.* at ¶6.

101. An election challenger at the Detroit Department of Elections office observed passengers in cars dropping off more ballots than there were people in the car. Exh. 3 (Meyers aff. ¶3). This challenger also observed an election worker accepting a ballot after 8:00 PM on Election Day. *Id.* ¶7.

102. An election challenger at the Detroit Department of Elections office observed ballots being deposited in a ballot drop box located at the Detroit Department of Elections after 8:00 PM on Election Day. *Id.* (Meyers aff. ¶6).

103. On November 4, 2020, Affiant Matt Ciantar came forward who, independently witnessed, while walking his dog, a young couple deliver 3-4 large plastic clear bags, that appeared to be “express bags”, as reflected in photographs taken contemporaneously, to a U.S. Postal vehicle waiting. *See generally* Exh. 7 Matt Ciantar Declaration. The use of clear “express bags” is consistent with the USPS whistleblower Johnathan Clarke in Traverse City, Michigan. *See infra* Paragraph 78.

8. Ballots from Deceased Voters Were Counted.

104. Plaintiff Sheridan’s team reviewed 51,018 new registered voters in Wayne County, and found that “205 of the voters were deceased, with an additional 1005 unverifiable through” their sources. Ex. 20 ¶6. One Michigan voter stated that her deceased son has been recorded as voting twice since he passed away, most recently in the 2020 general election. Ex. 3 (Chase aff. ¶3).

D. Wayne County Election So Riddled with “Irregularities and Inaccuracies” That Wayne County Board of Canvassers Refused to Certify Results.

105. The attached affidavit of Monica Palmer (Ex. 11), Chairperson of the Wayne County Board of Canvassers details the numerous “irregularities and inaccuracies” in Wayne County, both for the August 4, 2020 primary and the November 3, 2020 General Election, which convinced her to refuse to certify the General Election results. Among other things, her testimony describes Wayne County’s long-standing systemic problems with “unbalanced” precincts (*i.e.*, matching the vote count with the actual number of ballots cast). In the August 4, 2020 Primary election, for example, 72% of Detroit’s absentee voting precincts were out of balance.” *Id.* ¶7. This may have been due to the fact that the “City of Detroit did not scan a single precinct within a batch,” which “makes it nearly impossible to re-tabulate a precinct without potentially disrupting a perfectly balanced precinct. *Id.* ¶6 (second bullet). As a result, “[a]ll Board members express serious concerns about the irregularities and inaccuracies,” and “unanimously approved” a joint resolution to request that Secretary Benson institute an investigation and appoint an independent election monitor for the 2020 General Election, *id.* ¶9, which was not done. Chairperson Palmer determined, based on preliminary results from the 2020 General Election, that once again “more than 70% of Detroit’s 134 Absentee Voter Counting Boards (AVCB) did not balance and many had no explanation to why they did not balance.” *Id.* ¶14.

106. On November 17, 2020, Chairperson Palmer initially voted not to certify the results, but subsequently agreed to certify, subject to the condition that Secretary Benson conduct a “full, independent audit” of the results. *Id.* ¶21. When Secretary Benson reneged on the commitment, however, Chairperson Palmer rescinded her prior vote to certify. *Id.* ¶24. “The Wayne County election process had serious process flaws which deserve investigation,” and

Chairperson Palmer continues to believe that the results should not be certified pending “an additional 10 days of canvass by the State Board of Canvassers.” *Id.* ¶ 26.

107. Wayne County Board of Canvassers Member William C. Hartmann has also testified to the serious problems with the Wayne County Canvass. *See* Ex. 12. Like Chairperson Palmer, he “determined that 71% of Detroit’s 134 Absent[ee] Voter Counting Boards (AVCB) were left unbalanced and many *unexplained*.” *Id.* ¶6 (emphasis in original). Mr. Hartmann joined Chairperson Palmer in initially voting not to certify the results of the 2020 General Election, and the subsequent decision to do so based on a commitment to conduct an independent audit, and then voting again not to certify when Secretary Benson refused to conduct an audit. *Id.* ¶¶ 7, 11, and 18. In his testimony, Mr. Hartmann identifies a number of questions that must be answered – many of them tracking the concerns raised in Section II.A to II.C above – before the results can be certified. Of particular concern is the **“use of private monies directing local officials regarding the management of the election, how these funds were used and whether such funds were used to pay election workers.”** *Id.* ¶17.c. He also raises questions as to” “[w]hy the pollbooks, Qualified Voter Files, and final tallies do not match or balance?”; “were republicans *not* used in signing seals certified at the end of the night ... before ballot boxes were documented, closed and locked?”; the absence of logs from Detroit’s 134 ACVB; “[h]ow many challenged ballots were counted?”; “[h]ow many voter birthdates were altered in the pollbooks?”; “[w]ere ballots counted in TCF that were not reflected in the electronic pollbook or paper supplemental list?”; and were the “18,000 same-day registrations in Detroit on November 3 ... verified as proper voters prior to the tabulation of their ballots?” *Id.* ¶17. “Until these questions are addressed,” Mr. Hartmann “remain[s] opposed to certification of the Wayne County results.” *Id.* ¶19.

III. EXPERT WITNESS TESTIMONY INDICATING WIDESPREAD VOTING FRAUD AND MANIPULATION

A. Approximately 30,000 Michigan Mail-In Ballots Were Lost, and Approximately 30,000 More Were Fraudulently Recorded for Voters who Never Requested Mail-In Ballots.

108. The attached report of William M. Briggs, Ph.D. (“Dr. Briggs Report”) summarizes the multi-state phone survey data of 248 Michigan voters collected by Matt Braynard, which was conducted from November 15-17, 2020. (*See* Ex. 101, Dr. Briggs Report at 1 & Att. 1 thereto (“Braynard Survey”).) Using the Braynard Survey, Dr. Briggs identified two specific errors involving unreturned mail-in ballots that are indicative of voter fraud, namely: “**Error #1:** those who were recorded as receiving absentee ballots *without* requesting them;” and “**Error #2:** those who returned absentee ballots but whose votes went missing (*i.e.*, marked as unreturned).” *Id.* Dr. Briggs then conducted a parameter-free predictive model to estimate, within 95% confidence or prediction intervals, the number of ballots affected by these errors out of a total of 139,190 unreturned mail-in ballots for the State of Michigan.

109. With respect to **Error #1**, Dr. Briggs’ analysis estimated that **29,611 to 36,529 ballots** out of the total 139,190 unreturned ballots (**21.27% - 26.24%**) were recorded for voters who had **not** requested them. *Id.* With respect to **Error #2**, the numbers are similar with **27,928 to 34,710 ballots** out of 139,190 unreturned ballots (**20.06% - 24.93%**) recorded for voters who **did return their ballots were recorded as being unreturned.** *Id.* Taking the average of the two types of errors together, **62,517 ballots, or 45% of the total, are “troublesome.”**

110. These errors are not only conclusive evidence of widespread fraud by the State of Michigan,⁶ but they are fully consistent with the fact witness statements above the evidence

⁶ The only other possible explanations for the statements of 248 Michigan mail-in voters included in the Braynard Survey data is (a) that the 248 voters (who had no known pre-existing relationship apart from being listed as having unreturned absentee ballots) somehow contrived to

regarding Dominion presented below insofar as **these purportedly unreturned absentee ballots provide a pool of 60,000-70,000 unassigned and blank ballots that could be filled in by Michigan election workers, Dominion or other third parties to shift the election to Joe Biden.**

111. With respect to Error #1, Dr. Briggs’ analysis, combined with the statements of the Michigan voters in the Braynard Survey, demonstrates that approximately **30,000 absentee ballots were sent to someone besides the registered voter named in the request**, and thus could have been filled out by anyone and then submitted in the name of another voter.

112. With respect to Error #2, Dr. Briggs’ analysis indicates that approximately **30,000 absentee ballots were either lost or destroyed** (consistent with allegations of Trump ballot destruction) **and/or were replaced with blank ballots filled out by election workers, Dominion or other third parties.** Accordingly, Dr. Briggs’ analysis showing that almost half of purportedly “unreturned ballots” suffers from one of the two errors above – which is consistent with his findings in the four other States analyzed (Arizona 58%, Georgia 39%, Pennsylvania 37%, and Wisconsin 31%) – provides further support that these widespread “irregularities” or anomalies were one part of a much larger interstate fraudulent scheme to rig the 2020 General Election for Joe Biden.

B. Statistical Analysis of Anomalous and Unprecedented Turnout Increases in Specific Precincts Indicate that There Were at Least 40,000 “Excess Voters” in Wayne County and At Least 46,000 in Oakland County.

113. The attached affidavit of Eric Quinell, Ph.D. analyzes the extraordinary increase in turnout from 2016 to 2020 in a relatively small subset of townships and precincts outside of

collude together to submit false information or (b) that these 248 suffered from amnesia, dementia or some other condition that caused them to falsely claim that they had requested a mail-in ballot or returned a mail-in ballot.

Detroit in Wayne County and Oakland County, and more importantly how nearly 100% or more of all “new” voters from 2016 to 2020 voted for Biden. (*See* Ex. 102; *see also* Ex. 110, Chapter 2). Using publicly available information from Wayne County and Oakland County, Dr. Quinell first found that for the votes received up to the 2016 turnout levels, the 2020 vote Democrat vs. Republican two-ways distributions (i.e., excluding third parties) tracked the 2016 Democrat vs. Republican distribution very closely, which was 55%-45% for Wayne County (outside Detroit) and 54%-46% for Oakland County. *Id.* at ¶¶18 & 20.

114. However, after the 2016 turnout levels were reached, the Democrat vs. Republican vote share shifts decisively towards Biden by approximately 15 points, resulting in a 72%/28% D/R split for Oakland County and 70%/30% D/R split for Wayne County (outside of Detroit). What is even more anomalous – and suspicious – is the fact that nearly all of these “new” votes in excess of 2016 come from a small number of townships/precincts where the increased Biden vote share is nearly 100% or over 100% for Biden. *Id.*

115. For example, in the township of Livonia in Wayne County, Biden gained 3.2 voters for every 1 new Trump voter, and Biden received 97% of all “new” votes over 2016 and 151% of all new voter registrations. *Id.* at ¶6. In the township of Troy in Oakland County, the vote share shifted from 51%/49% in 2016 to 80%/20% in 2020 due to Biden receiving 98% of new votes above 2016 and 109% of new voter registrations. *Id.* at ¶20. Looking county-wide, Biden gained 2.32 new voters over 2016 levels to every 1 new Trump voter in Wayne County (outside Detroit) and 2.54 additional new voters per Trump voter for Oakland County. *Id.* ¶5.

116. Based on these statistically anomalous results that occurred in a handful of townships in these two counties, Dr. Quinell’s model determined that there were 40,771 anomalous votes in Wayne County (outside Detroit) and 46,125 anomalous votes in Oakland

County, for a total of nearly 87,000 anomalous votes or approximately 65% of Biden’s purported lead in Michigan.

117. Dr. Quinell’s conclusions are supported by the testimony S. Stanley Young, Ph.D. (*See* Ex. 110, Chapter 1, “Analysis of Michigan County Vote Counts”). Dr. Young examined all Michigan counties for changes in turnout from 2016 to 2020. In 74 out of 83 Michigan counties, the 2020 vs. 2016 turnout was within +/- 3,000 votes. *Id.* at 5. The two largest outliers are Oakland County (+54,310), Wayne County (+42,166), representing approximately 96,000 net votes for Biden, with the remaining seven outliers counties (Kent, Washtenaw, Ingham, Kalamazoo, Macomb, Ottawa, and Grand Traverse), which collectively represent an additional 95,000 net votes for Biden (or 191,000 in total). *Id.* at 6.

118. All or nearly all of the “new” votes were due to increased absentee and mail-in votes. Dr. Young also analyzes the differences in the distributions of election day in-person voting for Trump and Biden and the distribution for each of absentee mail-in votes. For Trump, the distributions are nearly identical, whereas the Biden distribution “are *very* different” representing “a serious statistical aberration”, that when combined with the turnout anomalies “are all statistically improbable relative to the body of the data.” *Id.* at 7. Dr. Young’s analysis indicates that, when the entire State of Michigan is considered, there were likely over 190,000 “excess” and likely fraudulent Biden votes, which once again is significantly larger than Biden’s 154,188 margin in Michigan.

C. Over 13,000 Ineligible Voters Who Have Moved Out-of-State Illegally Voted in Michigan.

119. Evidence compiled by Matt Braynard using the National Change of Address (“NCOA”) Database shows that 12,120 Michigan voters in the 2020 General Election moved out-of-state prior to voting, and therefore were ineligible. Mr. Braynard identified 1,170

Michigan voters in the 2020 General Election who subsequently registered to vote in another state, and were therefore ineligible to vote in the 2020 General Election. When duplicates from the two databases are eliminated, the merged number is 13,248 ineligible voters whose votes must be removed from the total for the 2020 General Election.⁷

D. Physical Impossibility: There Were At Least 289,866 More Ballots Processed in Four Michigan Counties on November 4 Than There Was Processing Capacity.

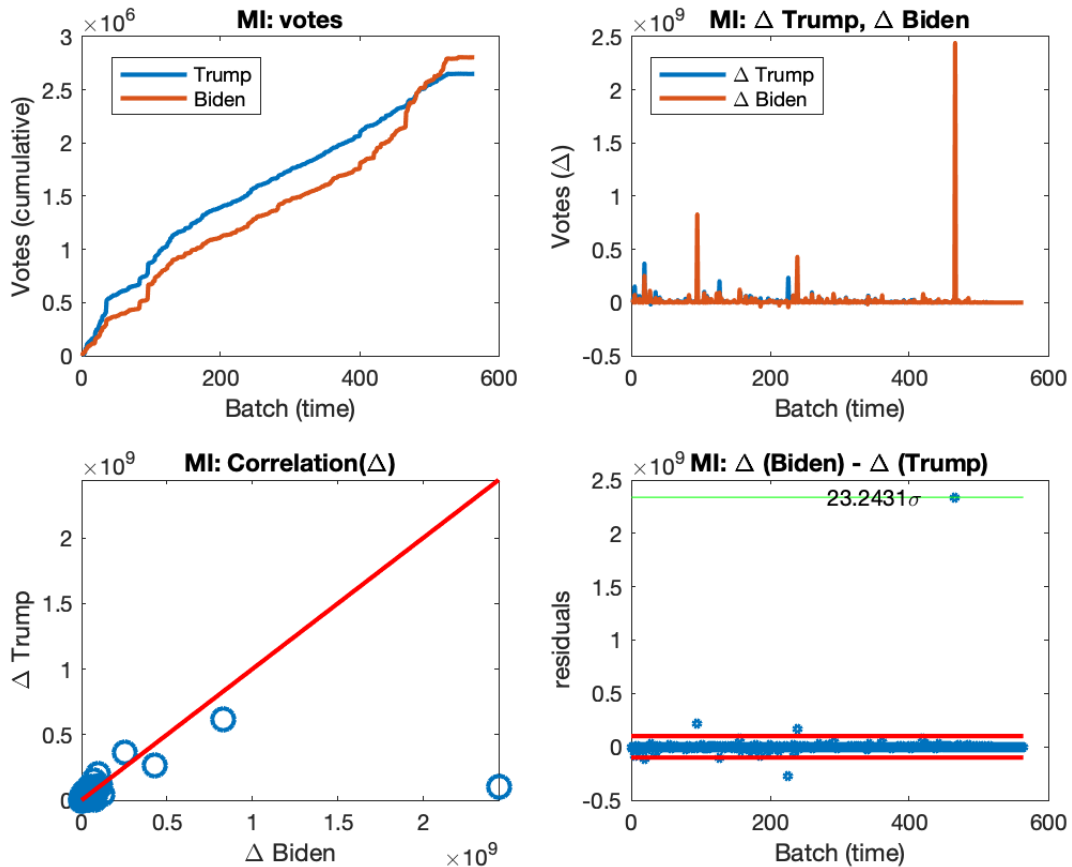

120. The expert witness testimony of Russell James Ramsland, Jr. (“Ramsland Affidavit”), which is described in greater detail below, identifies an event that occurred in Michigan on November 4 that is “physically impossible” *See* Ex. 104 at ¶14. The “event” reflected in the data are “4 spikes totaling 384,733 ballots allegedly processed in a combined interval of 2 hour[s] and 38 minutes” for four precincts/townships in four Michigan counties (Wayne, Oakland, Macomb, and Kent). *Id.* Based on Mr. Ramsland’s analysis of the voting machines available at the referenced locations, he determined that the maximum processing capability during this period was only 94,867 ballots, so that “there were 289,866 more ballots processed in the time available for processing in the four precincts/townships, than there was processing capacity.” *Id.* This amount alone is **nearly twice the number of ballots by which Biden purportedly leads President Trump** (*i.e.*, 154,188).

E. Statistical Impossibility: Biden’s Vertical “Jump” of 141,257 Votes at 11:31:48 on November 4, 2020.

121. Finally, Dr. Louis Bouchard analyzes the widely reported anomalous “jump” in Biden’s tally, where 141,257 votes for Biden were recorded during a single time interval: 11:31:48 on November 4, 2020. (*See* Ex. 110, Chapter 7). Before the jump Biden was trailing

⁷ Mr. Braynard posted the results of his analysis on Twitter. *See* <https://twitter.com/MattBraynard/status/1329700178891333634?s=20>. This Complaint includes a copy of his posting as Exhibit 103.

Trump by a significant amount, and then Biden’s vote tally curve went nearly vertical, making up the difference and surging past Trump nearly instantaneously as shown in the figure in the upper left below reproduced from Dr. Bouchard’s report. (*See id.* at 28).

122. Both candidates had “jumps” reflecting the addition of new votes, but this Biden jump was orders of magnitude than any jump received by Trump in the two States analyzed by Dr. Boucher (i.e., Florida and Michigan), *id.* at 26, and further that the “statistically anomalous jumps are all in Biden’s favor.” *Id.* at 27. The odds of a jump of 141,257 votes “**is statistically impossible; the odds of this happening are 1 in 10²³.**” *Id.* (Dr. Boucher also found even larger jumps for Biden in Florida on November 4, one for 435,219 votes and another for 367,539 votes. *Id.*).

F. Additional Anomalies and Impossibilities for Michigan Mail-In Ballots.

123. Robert Wilgus finds several additional statistical anomalies, and arguably impossibilities, in the mail-in ballot data. *See* Ex. 110 (Chapter 3, “Exploring Michigan Main-In Ballots Data”). Most notably, Mr. Wilgus analyzed Michigan mail-in data obtained through a FOIA request, and found the following: (1) 224,525 mail-in ballot applications were sent and received on the same date; (2) 288,783 mail-in ballots were sent and returned on the same date; (3) 78,312 applications were sent and received *and* the ballot sent and received *all on the same date*. *Id.* at 15. These number do not include **217,271 ballots with no date at all**, *id.* at 14, which likely would have increased the foregoing numbers, and is fully consistent with the numerous affiants above who testified to observing poll workers processing ballots without envelopes, and of poll workers, USPS personnel changing dates on absentee ballots and the other illegal conduct described in Section II.A and II.B above.

124. Thomas Davis identifies a different anomaly in the absentee mail-in data, namely, that (1) “the *percentage* of Democratic absentee voters exceeds the *percentage* of Republican absentee voters **in every precinct**,” and (2) “[e]ven more remarkable – and unbelievable – these two *independent variables appear to track one another*.” Ex. 110, Chapter 5 at 17 (emphasis in original). As shown in Mr. Davis’s article, the plots of the Democrat percentage of absentee voters in Ingham, Macomb, and Oakland Counties for 2020 are uniformly higher (i.e., with no intersections or lines crossing) than the Republican precinct, and the D-R percentage are nearly always in the range of +25%-30%; for 2016, by contrast, the plots for these three counties look like random walks with the Democrat and Republican line plots frequently crossing back and forth across one another. *Id.* at 17-18. Mr. Davis concludes that these statistical anomalies are “**very strong evidence that the absentee voting counts in some counties in Michigan have likely been manipulated by a computer algorithm**,” and that at some time after the 2016

election, software was installed that programmed tabulating machines “to shift a percentage of absentee ballot votes from Trump to Biden.” *Id.* at 19.

IV. FACTUAL ALLEGATIONS REGARDING DOMINION VOTING SYSTEMS

A. Dominion Undetectably Switched Trump Votes to Biden in Antrim County, which Was Only Discoverable Through Manual Recount.

125. On the morning of November 4, unofficial results posted by the Antrim County Clerk showed that Joe Biden had over 7,700 votes — 3,000 more than Donald Trump. Antrim County voted 62% in favor of President Trump in 2016. The Dominion Voting Systems election management system and voting machines (tabulators), which were used in Antrim County, are also used in many other Michigan counties, including Wayne County, were at fault.

126. However, malfunctioning voting equipment or defective ballots may have affected the outcome of a vote on an office appearing on the ballot.” Michigan Manual for Boards of County Canvassers. These vote tabulator failures are a mechanical malfunction that, under MCL §§ 168.831-168.839, requires a “special election” in the precincts affected.

127. Secretary of State Benson released a statement blaming the county clerk for not updating certain “media drives,” but her statement failed to provide any coherent explanation of how the Dominion Voting Systems software and vote tabulators produced such a massive miscount.⁸

128. Secretary Benson continued: “After discovering the error in reporting the unofficial results, the clerk worked diligently to report correct unofficial results by reviewing the printed totals tape on each tabulator and hand-entering the results for each race, for each precinct

⁸ See State of Michigan, Department of State Report, *Isolated User Error in Antrim County Does Not Affect Election Results* (November 7, 2020), available at: https://www.michigan.gov/documents/sos/Antrim_Fact_Check_707197_7.pdf.

in the county.” *Id.* What Secretary Benson fails to address is what would have happened if no one “discover[ed] the error,” for instance, in Wayne County, where the number of registered voters is much greater than Antrim County, and where the tabulators were not individually tested.

129. Wayne County used the same Dominion voting system tabulators as did Antrim County, and Wayne County tested only a single one of its vote tabulating machines before the election. The Trump campaign asked Wayne County to have an observer physically present to witness the process. *See* Exhibit 4. Wayne County denied the Trump campaign the opportunity to be physically present. Representatives of the Trump campaign did have opportunity to watch a portion of the test of a single machine by Zoom video.

B. Eyewitness Testimony That Dominion Voting Machines Were Improperly Connected to the Internet and Used Removable Storage Media and Mass File Transfers.

130. Affiant Patrick Colbeck was a Michigan State Senator from 2011 through 2018, is an IT specialist and certified Microsoft Small Business specialist, and served as a poll challenger at the TCF Center on November 3-4, 2020. In that capacity, Mr. Colbeck inquired whether the Dominion voting machines were connected to the Internet, but was repeatedly told “no” by three different election workers. *See* Ex. 13, Colbeck Nov. 8 aff ¶¶2,3 & 5. Mr. Colbeck determined that the voting machines were connected to the Internet, based on his visual inspection of the machines, which displayed the Windows “icon that indicates internet connection on each terminal.” *Id.* ¶5. Mr. Colbeck also took a series of pictures attached to his November 8, 2020 testimony showing the cables connecting the machines to the Internet, as well as screenshots from his phone showing that the Electronic Poll Books were also connected wirelessly to the Internet, *id.* ¶¶5-6, and used this data to create a network topology for the Detroit TCF Center Absentee Ballot Voter Counting Board. *Id.* The election workers also repeatedly refused to

answer Mr. Colbeck's questions as to how the "tabulated results were to be transferred to the County and other parties," despite the fact that the Detroit Elections Manual "specified that the tabulated votes would be copied from the adjudicator computers to a series of flash drives," *id.* ¶5, *i.e.*, rather than through Internet connections.

131. Mr. Colbeck also "witnessed mass file transfer operations on the monitor of a Local Data Center computer operated by [TCF Center] IT Staff, Detroit Election Officials, and Dominion Voting Systems employees." Ex. 14, Colbeck Nov. 20 aff. ¶7. Based on his experience as an IT professional, Mr. Colbeck "was curious as to what files would need to be transferred in mass as opposed to the serial process of importing results from each tabulator one at a time **as prescribed in the Detroit Elections Manual.**" *Id.* This question could be answered by event logs from the Dominion voting tabulators.

C. The Pattern of Incidents Shows an Absence of Mistake - Always In The Favor Of Biden.

132. Rules of Evidence, 404(b), applicable to civil matters makes clear that,

(b) Evidence of other crimes, wrongs, or acts shall not be admissible to prove the character of a person in order to show action in conformity therewith. **It may, however, be admissible for other purposes, including, but not limited to, proof of motive, opportunity, intent, preparation, plan, knowledge, identity, or absence of mistake or accident.**

133. Tabulator issues and election violations occurred elsewhere in Michigan reflecting a pattern, where multiple incidents occurred. In Oakland County, votes flipped a seat to an incumbent Republican, Adam Kochenderfer, from the Democrat challenger when: "A computer issue in Rochester Hills caused them to send us results for seven precincts as both precinct votes and absentee votes. They should only have been sent to us as absentee votes," Joe

Rozell, Oakland County Director of Elections for the City of Huntington Woods, said.⁹

134. The Oakland County flip of votes becomes significant because it reflects a second systems error, wherein both favored the Democrats, and **precinct votes were sent out to be counted**, and they were counted twice as a result until the error was caught on a recount. Precinct votes should never be counted outside of the precinct, and they are required to be sealed in the precinct. See generally, MCL § 168.726.

D. Dominion Voting Machines and Forensic Evidence of Wide-Spread Fraud in Defendant Counties.

135. The State of Michigan entered into a ten-year contract with Dominion Systems' Democracy Suite 4.14-D first, and then included Dominion Systems Democracy Suite 5.0-S on or about January 27, 2017, which added a fundamental modification: "dial-up and wireless results transmission capabilities to the ImageCast Precinct and results transmission using the Democracy Suite EMS Results Transfer Manager module."¹⁰

136. The Michigan Contract with Dominion Voting Systems Democracy packages include language that describes *Safety and Security*, which in part makes the risks of potential breach clear where keys can be lost despite the fact that they provide full access to the unit, and while it is clear that the electronic access provides control to the unit, and the ability to alter results, combined with the lack of observers, creates a lack of security that becomes part of a pattern of the absence of mistake, or fraud:

⁹ Bill Laitner, *Fixed Computer Glitch Turns Losing Republican into a Winner in Oakland County*, Detroit Free Press (Nov. 20, 2020), available at: <https://www.freep.com/story/news/local/michigan/oakland/2020/11/06/oakland-county-election-2020-race-results/6184186002/>.

¹⁰ See Ex. 8, State of Michigan Enterprise Procurement, Dept. of Technology, Management and Budget Contract No. 071B7700117, between State of Michigan and Dominion Voting Systems ("Dominion Michigan Contract").

The ImageCast tabulators are unlocked by an iButton security key, which is used to:

- Authenticate the software version (ensuring it is a certified version that has not been tampered with)
- Decrypt election files while processing ballots during the election
- Encrypt results files during the election
- Provide access control to the unit

It is anticipated that the iButton security keys may get lost; therefore, any substitute key created for the same tabulator will allow the unit to work fully.¹¹

137. As evidence of the risks of the Dominion Democracy Suite, as described above, the same Dominion Democracy Suite was denied certification in Texas by the Secretary of State on January 24, 2020 specifically because the “examiner reports raise concerns about whether Democracy Suite 5.5-A system ... **is safe from fraudulent or unauthorized manipulation.**”¹²

1. Antrim County “Glitch” Was Not “Isolated Error” and May Have Affected Other Counties.

138. The first red flag is the Antrim County, Michigan “glitch” that switched 6,000 Trump ballots to Biden, and that was only discoverable through a manual hand recount. *See supra* Paragraph 94. The “glitch” was later attributed to “clerical error” by Dominion and Antrim Country, presumably because if it were correctly identified as a “glitch”, “the system would be required to be ‘recertified’ according to Dominion officials. This was not done.” Exh. 104, Ramsland Aff. at ¶10. Mr. Ramsland points out that “the problem most likely did occur due to a glitch where an update file did not properly synchronize the ballot barcode generation and reading portions of the system.” *Id.* Further, **such a glitch would not be an “isolated error,” as it “would cause entire ballot uploads to read as zero in the tabulation batch, which we**

¹¹ See Ex. 8, Dominion Michigan Contract at 122.

¹² See Ex. 9, State of Texas Secretary of State, Elections Division, *Report of Review of Dominion Voting Systems Democracy Suite 5.5-A* at 2 (Jan. 24, 2020) (emphasis added).

also observed happening in the data (provisional ballots were accepted properly but in-person ballots were being rejected (zeroed out and/or changed (flipped)).” *Id.* Accordingly, Mr. Ramsland concludes that it is likely that other Michigan counties using Dominion may “have the same problem.” *Id.*

E. Anomalies in Dominion’s Michigan Results for 2020 General Election Demonstrate Dominion Manipulated Election Results, and that the Number of Illegal Votes Is Nearly Twice As Great as Biden’s Purported Margin of Victory.

139. The expert witness testimony of Russell James Ramsland, Jr. (“Ramsland Affidavit”)¹³ analyzes anomalies in Dominion’s Michigan results for the 2020 election, and flaws in the system architecture more generally, to conclude that Dominion manipulated election results. Dominion’s manipulation of election results enabled Defendants to engage in further voting fraud violations above and beyond the litany of violations recited above in Section II.A through Section II.C.

140. Mr. Ramsland’s analysis of the raw data, which provides **votes counts, rather than just vote shares, in decimal form** proves that Dominion manipulated votes through the use of an “additive” or “Ranked Choice Voting” algorithm (or what Dominion’s user guide refers to as the “RCV Method”). *See id.* at ¶12.¹⁴ Mr. Ramsland presents the following example of this data – taken from “Dominion’s direct feed to news outlets” – in the table below. *Id.*

state	timestamp	eevp	trump	biden	TV	BV
michigan	2020-11-04T06:54:48Z	64	0.534	0.448	1925865.66	1615707.52

¹³ As detailed in the Ramsland Affidavit and the CV attached thereto, Mr. Ramsland is a member of the management team Allied Security Operations Group, LLC (“ASOG”), a firm specializing in cybersecurity, OSINT and PEN testing of networks for election security and detecting election fraud through tampering with electronic voting systems.

¹⁴ *See id.* (quoting Democracy Suite EMS Results Tally and Reporting User Guide, Chapter 11, Settings 11.2.2., which reads, in part, “RCV METHOD: This will select the specific method of tabulating RCV votes to elect a winner.”).

michigan	2020-11-04T06:56:47Z	64	0.534	0.448	1930247.664	1619383.808
michigan	2020-11-04T06:58:47Z	64	0.534	0.448	1931413.386	1620361.792
michigan	2020-11-04T07:00:37Z	64	0.533	0.45	1941758.975	1639383.75
michigan	2020-11-04T07:01:46Z	64	0.533	0.45	1945297.562	1642371.3
michigan	2020-11-04T07:03:17Z	65	0.533	0.45	1948885.185	1645400.25

141. Mr. Ramsland further describes how the RCV algorithm can be implemented, and the significance of the use of fractional vote counts, with decimal places, rather than whole numbers, in demonstrating that Dominion did just that to manipulate Michigan votes.

For instance, blank ballots can be entered into the system and treated as “write-ins.” Then the operator can enter an allocation of the write-ins among candidates as he wishes. The final result then awards the winner based on “points” the algorithm in the compute, not actual votes. The fact that we observed raw vote data that includes decimal places suggests strongly that this was, in fact, done. Otherwise, votes would be solely represented as whole numbers. Below is an excerpt from Dominion’s direct feed to news outlets showing actual calculated votes with decimals. *Id.*

2. Strong Evidence That Dominion Shifted Votes from Trump to Biden.

142. Another anomaly identified by Mr. Ramsland is the dramatic shift in votes between the two major party candidates as the tabulation of the turnout increased, and more importantly, the change in voting share before and after 2 AM on November 4, 2020, after Wayne County and other Michigan election officials had supposedly halted counting.

Until the tabulated voter turnout reached approximately 83%, Trump was generally winning between 55% and 60% of every turnout point. **Then, after the counting was closed at 2:00 am, the situation dramatically reversed itself, starting with a series of impossible spikes shortly after counting was supposed to have stopped.** *Id.* at ¶13.

143. Once again, the means through which Dominion appears to have implemented this scheme is through the use of blank ballots that were all, or nearly all, cast for Biden.

The several spikes cast solely for Biden could easily be produced in the Dominion system by pre-loading batches of blank ballots in files such as Write-Ins, then casting them all for Biden using the Override Procedure (to cast Write-In ballots) that is available to the operator of the system. A few batches of blank ballots

could easily produce a reversal this extreme, a reversal that is almost as statistically difficult to explain as is the impossibility of the votes cast to number of voters described in Paragraph 11 above. *Id.*

144. Mr Ramsland and his team analyzed the sudden injection totaling 384,733 ballots in four Michigan counties (Wayne, Oakland, Macomb, and Kent) in a 2 hour 38 minute period in the early morning of November 4 (which would have included the first ballot dump described above in Paragraph 72), and concluded that “[t]his is an impossibility, given the equipment available at the 4 reference locations (precincts/townships).” *Id.* at ¶14.

145. Specifically, Mr. Ramsland calculated “94,867 ballots as the maximum number of ballots that could be processed” in that time period, and thus that “[t]here were 289,866 more ballots processed in the time available for processing in four precincts/townships, than the capacity of the system allows.” *Id.* Mr. Ramsland concludes that “[t]he documented existence of the spikes are strongly indicative of a manual adjustment either by the operator of the system (see paragraph 12 above) or an attack by outside actors.” *Id.* The vote totals added for all Michigan counties, including Wayne, Oakland, Macomb and Kent counties, for the period analyzed by Mr. Ramsland are reproduced in the figure below.

3. The Number of Illegal Votes Attributable to Dominion Is Nearly Twice Biden’s Purported Margin in Michigan.

146. Based on his analysis of the red flags and statistical anomalies discussed below,

Mr. Ramsland concludes that:

[T]hese statistical anomalies and impossibilities compels the conclusion to a reasonable degree of professional certainty that the vote count in Michigan and in Wayne County, in particular for candidates for President contain at least 289,866 illegal votes that must be disregarded.

Given that Mr. Biden’s currently purported margin of victory is approximately 154,000, the number of illegal votes attributable Dominion’s fraudulent and illegal conduct is by itself (without considering the tens or hundreds of thousands of illegal votes due to the unlawful conduct described in Section II), is nearly twice Mr. Biden’s current purported lead in the State of Michigan. Thus Mr. Ramsland affidavit alone provides this Court more than sufficient basis to grant the relief requested herein.

F. Additional Independent Findings of Dominion Flaws.

147. Further supportive of this pattern of incidents, reflecting an absence of mistake, Plaintiffs have since learned that the "glitches" in the Dominion system, that have the uniform effect of hurting Trump and helping Biden, have been widely reported in the press and confirmed by the analysis of independent experts.

1. Central Operator Can Remove, Discard or Manipulate Votes.

148. Plaintiffs have also learned of the connection between Dominion Voting Systems, Smartmatic and the voting systems used in Venezuela and the Philippines.

- a. Dominion Voting has also contradicted itself in a rush to denial a pattern of errors that lead to fraud. For example, Dominion Voting Systems machines can read all of these instruments, including Sharpies. <https://www.dominionvoting.com/>
- b. Dominion Voting's Democracy Suite contract with Michigan specifically requires:

Black Ink: Black ink (or toner) must be dense, opaques, light-fast and permanent, with a measured minimum 1.2 reflection density (log) above the paper base. See Ex. 8 ¶2.6.2.

149. Affiant Ronald Watkins, who is a network & Information cyber-securities expert, under sworn testimony explains that after studying the user manual for Dominion Voting Systems Democracy software, he learned that the information about scanned **ballots can be tracked inside the software system:**

(a) When bulk ballot scanning and tabulation begins, the "ImageCast Central" workstation operator will load a batch of ballots into the scanner feed tray and then start the scanning procedure within the software menu. The scanner then begins to scan the ballots which were loaded into the feed tray while the "ImageCast Central" software application tabulates votes in real-time. Information about scanned ballots can be tracked inside the "ImageCast Central" software application. (Ex. 106, Watkins aff. ¶11).

150. Mr. Watkins further explains **that the central operator can remove or discard batches of votes.** "After all of the ballots loaded into the scanner's feed tray have been through the scanner, the "ImageCast Central" operator will remove the ballots from the tray then have the

option to either "Accept Batch" or "Discard Batch" on the scanning menu “ *Id.* ¶8.

151. Mr. Watkins further testifies that the user manual makes clear that the system allows for threshold settings to be set to find all ballots get marked as “problem ballots” for discretionary determinations on where the vote goes stating:

9. During the ballot scanning process, the "ImageCast Central" software will detect how much of a percent coverage of the oval was filled in by the voter. The Dominion customer determines the thresholds of which the oval needs to be covered by a mark in order to qualify as a valid vote. If a ballot has a marginal mark which did not meet the specific thresholds set by the customer, then the ballot is considered a "problem ballot" and may be set aside into a folder named "NotCastImages".

10. Through creatively tweaking the oval coverage threshold settings, and advanced settings on the ImageCase Central scanners, it may be possible to set thresholds in such a way that a non-trivial amount of ballots are marked "problem ballots" and sent to the "NotCastImages" folder.

11. The administrator of the ImageCast Central work station may view all images of scanned ballots which were deemed "problem ballots" by simply navigating via the standard "Windows File Explorer" to the folder named "NotCastImages" which holds ballot scans of "problem ballots". It may be possible for an administrator of the "ImageCast Central" workstation to view and delete any individual ballot scans from the "NotCastImages" folder by simply using the standard Windows delete and recycle bin functions provided by the Windows 10 Pro operating system. *Id.* ¶¶9-11.

152. Mr. Watkins further explains the vulnerabilities in the system when the copy of the selected ballots that are approved in the Results folder are made to a flash memory card – and that is connected to a Windows computer stating:

The upload process is just a simple copying of a "Results" folder containing vote tallies to a flash memory card connected to the "Windows 10 Pro" machine. The copy process uses the standard drag-n-drop or copy/paste mechanisms within the ubiquitous "Windows File Explorer". While a simple procedure, this process may be error prone and is very vulnerable to malicious administrators. *Id.* ¶13.

2. Dominion – By Design – Violates Federal Election & Voting Record Retention Requirements.

153. The Dominion System put in place by its own design violates the intent of Federal

law on the requirement to preserve and retain records – which clearly requires preservation of all records requisite to voting in such an election.

§ 20701. Retention and preservation of records and papers by officers of elections; deposit with custodian; penalty for violation

Every officer of election shall retain and preserve, for a period of twenty-two months from the date of any general, special, or primary election of which candidates for the office of President, Vice President, presidential elector, Member of the Senate, Member of the House of Representatives, or Resident Commissioner from the Commonwealth of Puerto Rico are voted for, **all records and papers which come into his possession relating to any application, registration, payment of poll tax, or other act requisite to voting in such election**, except that, when required by law, such records and papers may be delivered to another officer of election and except that, if a State or the Commonwealth of Puerto Rico designates a custodian to retain and preserve these records and papers at a specified place, then such records and papers may be deposited with such custodian, and the duty to retain and preserve any record or paper so deposited shall devolve upon such custodian. Any officer of election or custodian who willfully fails to comply with this section shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

See 52 USC § 20701.

154. A Penn Wharton Study from 2016 concluded that “Voters and their representatives in government, often prompted by news of high-profile voting problems, also have raised concerns about the reliability and integrity of the voting process, and have increasingly called for the use of modern technology such as laptops and tablets to improve convenience.”¹⁵

3. Dominion Vulnerabilities to Hacking.

155. Plaintiffs have since learned that the "glitches" in the Dominion system --

¹⁵ Penn Wharton Public Policy Initiative, University of Pennsylvania, *The Business of Voting: Market Structure and Innovation in the Election Technology Industry* at 16 (2016) (“Penn Wharton 2016 Study”), available at: https://trustthevote.org/wp-content/uploads/2017/03/2017-whartonoset_industryreport.pdf.

that have the uniform effect of hurting Trump and helping Biden -- have been widely reported in the press and confirmed by the analysis of independent experts.

156. Plaintiffs can show, through expert and fact witnesses that:

A. Massive End User Vulnerabilities.

- (1) Users on the ground have full admin privileges to machines and software. The Dominion system is designed to facilitate vulnerability and allow a select few to determine which votes will be counted in any election. Workers were responsible for moving ballot data from polling place to the collector's office and inputting it into the correct folder. Any anomaly, such as pen drips or bleeds, is not counted and is handed over to a poll worker to analyze and decide if it should count. This creates massive opportunity for improper vote adjudication. (Ex. 106 Watkins aff. ¶¶8 & 11).
- (2) Affiant witness (name redacted for security reasons), in his sworn testimony explains he was selected for the national security guard detail of the President of Venezuela, and that he witnessed the creation of Smartmatic for the purpose of election vote manipulation:

I was witness to the creation and operation of a sophisticated electronic voting system that permitted the leaders of the Venezuelan government to manipulate the tabulation of votes for national and local elections and select the winner of those elections in order to gain and maintain their power. Importantly, I was a direct witness to the creation and operation of an electronic voting system in a conspiracy between a company known as Smartmatic and the leaders of conspiracy with the Venezuelan government. This conspiracy specifically involved President Hugo Chavez Frias, the person in charge of the National Electoral Council named Jorge Rodriguez, and principals, representatives, and personnel from Smartmatic which included ... The purpose of this conspiracy was to create and operate a voting system that could change the votes in elections from votes against persons running the Venezuelan government to votes in their favor in order to maintain control of the government. (*Id.* ¶¶6, 9, 10).

157. Specific vulnerabilities of the systems in question that have been documented or reported include:

- A. Barcodes can override the voters' vote: As one University of California, Berkeley study shows, "In all three of these machines [including Dominion Voting Systems] the ballot marking printer is in the same paper path as the mechanism to deposit marked ballots into an attached ballot box. This opens

- up a very serious security vulnerability: the voting machine can make the paper ballot (to add votes or spoil already-cast votes) after the last time the voter sees the paper, and then deposit that marked ballot into the ballot box without the possibility of detection.” (See Ex. 2, Appel Study).
- B. Voting machines were able to be connected to the internet by way of laptops that were obviously internet accessible. If one laptop was connected to the internet, the entire precinct was compromised.
 - C. October 6, 2006 – Congresswoman Carolyn Maloney calls on Secretary of Treasury Henry Paulson to conduct an investigation into Smartmatic based on its foreign ownership and ties to Venezuela. (See Ex. 15). Congresswoman Maloney wrote that “It is undisputed that Smartmatic is foreign owned and it has acquired Sequoia ... Smartmatic now acknowledged that Antonio Mugica, a Venezuelan businessman has a controlling interest in Smartmatic, but the company has not revealed who all other Smartmatic owners are. *Id.*”
 - D. Dominion “got into trouble” with several subsidiaries it used over alleged cases of fraud. One subsidiary is Smartmatic, a company “that has played a significant role in the U.S. market over the last decade.”¹⁶ Dominion entered into a 2009 contract with Smartmatic and provided Smartmatic with the PCOS machines (optical scanners) that were used in the 2010 Philippine election, the biggest automated election run by a private company. The automation of that first election in the Philippines was hailed by the international community and by the critics of the automation. The results transmission reached 90% of votes four hours after polls closed and Filipinos knew for the first time who would be their new president on Election Day. In keeping with local Election law requirements, Smartmatic and Dominion were required to provide the source code of the voting machines prior to elections so that it could be independently verified. *Id.*
 - E. Litigation over Smartmatic “glitches” alleges they impacted the 2010 and 2013 mid-term elections in the Philippines, raising questions of cheating and fraud. An independent review of the source codes used in the machines found multiple problems, which concluded, “The software inventory provided by Smartmatic is inadequate, ... which brings into question the software credibility.”¹⁷
 - F. Dominion acquired Sequoia Voting Systems as well as Premier Election

¹⁶ *Voting Technology Companies in the U.S. – Their Histories and Present Contributions*, Access Wire, (Aug. 10, 2017), available at: <https://www.accesswire.com/471912/Voting-Technology-Companies-in-the-US--Their-Histories>.

¹⁷ *Smartmatic-TIM Running Out of Time to Fix Glitches*, ABS-CBN News (May 4, 2010), available at: <https://news.abs-cbn.com/nation/05/04/10/smartmatic-tim-running-out-time-fix-glitches>.

Solutions (formerly part of Diebold, which sold Premier to ES&S in 2009, until antitrust issues forced ES&S to sell Premier, which then was acquired by Dominion). This map illustrates 2016 voting machine data—meaning, these data do not reflect geographic aggregation at the time of acquisition, but rather the machines that retain the Sequoia or Premier/Diebold brand that now fall under Dominion’s market share. Penn Wharton Study at 16.

- G. In late December of 2019, three Democrat Senators, Warren, Klobuchar, Wyden and House Member Mark Pocan wrote about their ‘particularized concerns that secretive & “trouble -plagued companies”’ “have long skimmed on security in favor of convenience,” in the context of how they described the voting machine systems that three large vendors – Election Systems & Software, Dominion Voting Systems, & Hart InterCivic – collectively provide voting machines & software that facilitate voting for over 90% of all eligible voters in the U.S.” (See Ex. 16).
- H. Senator Ron Wyden (D-Oregon) said the findings [insecurity of voting systems] are “yet another damning indictment of the profiteering election vendors, who care more about the bottom line than protecting our democracy.” It’s also an indictment, he said, “of the notion that important cybersecurity decisions should be left entirely to county election offices, many of whom do not employ a single cybersecurity specialist.”¹⁸

158. The expert witness in pending litigation in the United States District Court of Georgia, Case 1:17-cv-02989-AT, Harri Hursti, specifically testified to the acute security vulnerabilities, among other facts, by declaration filed on August 24, 2020, (See Ex. 107) wherein he testified or found:

- A. “The scanner and tabulation software settings being employed to determine which votes to count on hand marked paper ballots are likely causing clearly intentioned votes to be counted” “The voting system is being operated in Fulton County in a manner that escalates the security risk to an extreme level” “Votes are not reviewing their BMD printed ballots, which causes BMD generated results to be un-auditable due to the untrustworthy audit trail.” 50% or more of voter selections in some counties were visible to poll workers. Dominion employees maintain near exclusive control over the EMS servers. “In my professional opinion, the role played by Dominion personnel in Fulton County, and other counties with similar arrangements, should be considered

¹⁸ Kim Zetter, *Exclusive: Critical U.S. Election Systems Have Been Left Exposed Online Despite Official Denials*, VICE (Aug. 8, 2019) (“VICE Election Article”), available at: <https://www.vice.com/en/article/3kxzk9/exclusive-critical-us-election-systems-have-been-left-exposed-online-despite-official-denials>.

an elevated risk factor when evaluating the security risks of Georgia’s voting system.” *Id.* ¶26.

- B. A video game download was found on one Georgia Dominion system laptop, suggesting that multiple Windows updates have been made on that respective computer.
- C. There is evidence of remote access and remote troubleshooting which presents a grave security implication.
- D. Certified identified vulnerabilities should be considered an “extreme security risk.”
- E. There is evidence of transfer of control the systems out of the physical perimeters and place control with a third party off site.
- F. USB drives with vote tally information were observed to be removed from the presence of poll watchers during a recent election.

1. Hursti stated within said Declaration:

“The security risks outlined above – operating system risks, the failure to harden the computers, performing operations directly on the operating systems, lax control of memory cards, lack of procedures, and potential remote access are extreme and destroy the credibility of the tabulations and output of the reports coming from a voting system.” *Id.* ¶49.

159. Rather than engaging in an open and transparent process to give credibility to Michigan’s Dominion-Democracy Suite voting system, the processes were hidden during the receipt, review, opening, and tabulation of those votes in direct contravention of Michigan’s Election Code and Federal law.

160. In October of 2020 The FBI and CISA issued a JOINT CYBERSECURITY ADVISORY ON October 30, 2020 titled: **Iranian Advanced Persistent Threat Actor**

Identified Obtained Voter Registration Data

This joint cybersecurity advisory was coauthored by the Cybersecurity and Infrastructure Security Agency (CISA) and the Federal Bureau of Investigation (FBI). CISA and the FBI are aware of an Iranian advanced persistent threat (APT) actor targeting U.S. state websites to include election websites. CISA and the FBI assess this actor is responsible for the mass dissemination of voter intimidation emails to U.S. citizens and the dissemination of U.S. election-related

disinformation in mid-October 2020.¹ (Reference FBI FLASH message ME-000138-TT, disseminated October 29, 2020). Further evaluation by CISA and the FBI has identified the targeting of U.S. state election websites was an intentional effort to influence and interfere with the 2020 U.S. presidential election. (See Ex. 18 at 1, CISA and FBI Joint Cyber Security Advisory of October 30, 2020)

161. An analysis of the Dominion software system by a former US Military Intelligence expert subsequently found that the Dominion Voting system and software are accessible - and got compromised by rogue actors, including foreign interference by Iran and China. (See Ex. 105, Spider Declaration (Affiant's name redacted for security reasons)).

162. The expert finds an analysis and explains how by using servers and employees connected with rogue actors and hostile foreign influences combined with numerous easily discoverable leaked credentials, Dominion allowed foreign adversaries to access data and intentionally provided access to their infrastructure in order to monitor and manipulate elections, including the most recent one in 2020. (See *Id.*). Several facts are set forth related to foreign members of Dominion Voting Systems and foreign servers as well as foreign interference.).

163. Another expert, whose name has been redacted, conducted in-depth statistical analysis of publicly available data on the 2020 U.S. Presidential Election from November 13, 2020 through November 28, 2020. (See Ex. 111). He compares results from Dominion Voting Machines to areas with non-Dominion Voting Machines and he finds that Biden out-performs in the areas with Dominion Voting Machines, and after checking for other potential drivers of bias, finds none. *Id.* ¶¶11-12. He finds the difference to be clearly statistically significant. His review includes data included vote counts for each county in the United States, U.S. Census data, and type of voting machine data provided by the U.S. Election Assistance Committee and further concludes that *“the results of the analysis and the pattern seen in the included graph strongly suggest a systemic, system-wide algorithm was enacted by an outside agent, causing the results of Michigan’s vote tallies to be inflated by somewhere between three and five point six*

percentage points. *Statistical estimating yields that in Michigan, the best estimate of the number of impacted votes is 162,400. However, a 95% confidence interval calculation yields that as many as 276,080 votes may have been impacted.*” *Id.* ¶13.

4. Background of Dominion Connections to Smartmatic and Hostile Foreign Governments.

164. Plaintiffs can also show Smartmatic’s incorporation and inventors who have backgrounds evidencing their foreign connections, including Serbia, specifically its identified inventors:

Applicant: SMARTMATIC, CORP.

Inventors: Lino Iglesias, Roger Pinate, Antonio Mugica, Paul Babic, Jeffrey Naveda, Dany Farina, Rodrigo Meneses, Salvador Ponticelli, Gisela Goncalves, Yrem Caruso¹⁹

165. Another Affiant witness testifies that in Venezuela, she was in official position related to elections and witnessed manipulations of petitions to prevent a removal of President Chavez and because she protested, she was summarily dismissed. She explains the vulnerabilities of the electronic voting system and Smartmatica to such manipulations. (See Ex. 17, Cardozo Aff. ¶8).

G. Because Dominion Senior Management Has Publicly Expressed Hostility to Trump and Opposition to His Election, Dominion Is Not Entitled to Any Presumption of Fairness, Objectivity or Impartiality, and Should Instead Be Treated as a Hostile Partisan Political Actor.

166. Dr. Eric Coomer is listed as the co-inventor for several patents on ballot adjudication and voting machine-related technology, all of which were assigned to Dominion.²⁰ He joined Dominion in 2010, and most recently served as Voting Systems

¹⁹ See Patents Assigned to Smartmatic Corp., available at: <https://patents.justia.com/assignee/smartmatic-corp>

²⁰ See “Patents by Inventor Eric Coomer,” available at: <https://patents.justia.com/inventor/eric-coomer>. This page lists the following patents

Officer of Strategy and Director of Security for Dominion. Upon information and belief, Dr. Coomer first joined Sequoia Voting Systems in 2005 as Chief Software Architect and became Vice President of Engineering before Dominion Voting Systems acquired Sequoia. Dr. Coomer's patented ballot adjudication technology into Dominion voting machines sold throughout the United States, including those used in Michigan.

167. In 2016, Dr. Coomer admitted to the State of Illinois that Dominion Voting machines can be manipulated remotely.²¹ He has also publicly posted videos explaining how Dominion voting machines can be remotely manipulated.²²

168. Dr. Coomer has emerged as Dominion's principal defender, both in litigation alleging that Dominion rigged elections in Georgia and in the media. An examination of his previous public statements has revealed that Dr. Coomer is a highly partisan and even more anti-Trump, precisely the opposite of what would expect from

issued to Dr. Coomer and his co-inventors: (1) U.S. Patent No. 9,202,113, Ballot Adjudication in Voting Systems Utilizing Ballot Images (issued Dec. 1, 2015); (2) U.S. Patent No. 8,913,787, Ballot Adjudication in Voting Systems Utilizing Ballot Images (issued Dec. 16, 2014); (3) U.S. Patent No. 8,910,865, Ballot Level Security Features for Optical Scan Voting Machine Capable of Ballot Image Processing, Secure Ballot Printing, and Ballot Layout Authentication and Verification (issued Dec. 16, 2014); (4) U.S. Patent No. 8,876,002, Systems for Configuring Voting Machines, Docking Device for Voting Machines, Warehouse Support and Asset Tracking of Voting Machines (issued Nov. 4, 2014); (5) U.S. Patent No. 8,864,026, Ballot Image Processing System and Method for Voting Machines (issued Oct. 21, 2014); (6) U.S. Patent No. 8,714,450, Systems and Methods for Transactional Ballot Processing, and Ballot Auditing (issued May 6, 2014), available at: <https://patents.justia.com/inventor/eric-coomer>.

²¹ Jose Hermosa, *Electoral Fraud: Dominion's Vice President Warned in 2016 That Vote-Counting Systems Are Manipulable*, The BL (Nov. 13, 2020), available at: <https://thebl.com/us-news/electoral-fraud-dominions-vice-president-warned-in-2016-that-vote-counting-systems-are-manipulable.html>.

²² See, e.g., "Eric Coomer Explains How to Alter Votes in the Dominion Voting System" (Nov. 24, 2020) (excerpt of presentation delivered in Chicago in 2017), available at: <https://www.youtube.com/watch?v=UtB3tLaXLJE>.

the management of a company charged with fairly and impartially counting votes (which is presumably why he tried to scrub his social media history).

169. Unfortunately for Dr. Coomer, however, a number of these posts have been captured for perpetuity. Below are quotes from some of his greatest President Trump and Trump voter hating hits. (*See Ex. 19*).

If you are planning to vote for that autocratic, narcissistic, fascist ass-hat blowhard and his Christian jihadist VP pic, UNFRIEND ME NOW! No, I'm not joking. ... Only an absolute F[**]KING IDIOT could ever vote for that wind-bag fuck-tard FASCIST RACIST F[**]K! ... I don't give a damn if you're friend, family, or random acquaintance, pull the lever, mark an oval, touch a screen for that carnival barker ... UNFRIEND ME NOW! I have no desire whatsoever to ever interact with you. You are beyond hope, beyond reason. You are controlled by fear, reaction and bullsh[*]t. Get your shit together. F[**]K YOU! Seriously, this f[**]king ass-clown stands against everything that makes this country awesome! You want in on that? You [Trump voters] deserve nothing but contempt. *Id.* (July 21, 2016 Facebook post).²³

170. In a rare moment of perhaps unintentional honesty, Dr. Coomer anticipates this Complaint and many others, by slandering those seeking to hold election riggers like Dominion to account and to prevent the United States' descent into Venezuelan levels of voting fraud and corruption out of which Dominion was born:

Excerpts in stunning Trump-supporter logic, "I know there is a lot of voter fraud. I don't know who is doing it, or how much is happening, but I know it is going on a lot." This beautiful statement was followed by, "It happens in third world countries, this the US, we can't let it happen here." *Id.* (October 29, 2016 Facebook post).

171. Dr. Coomer, who invented the technology for Dominion's voting fraud and has publicly explained how it can be used to alter votes, seems to be extremely hostile to those who would attempt to stop it and uphold the integrity of elections that

²³ In this and other quotations from Dr. Coomer's social media, Plaintiffs have redacted certain profane terms.

underpins the legitimacy of the United States government:

And in other news... There be some serious fuckery going on right here fueled by our Cheeto-in-Chief stocking lie after lie on the flames of [Kris] Kobach... [Linking Washington Post article discussing the Presidential Advisory Commission on Election Integrity, of which former Kansas Secretary of State Kris Kobach was a member, entitled, “The voting commission is a fraud itself. Shut it down.”] *Id.* (September 14, 2017 Facebook post.)

172. Dr. Coomer also keeps good company, supporting and reposting ANTIFA statements slandering President Trump as a “fascist” and by extension his supporters, voters and the United States military (which he claims, without evidence, Trump will make into a “fascist tool”). *Id.* (June 2, 2020 Facebook post). Lest someone claims that these are “isolated statements” “taken out of context”, Dr. Coomer has affirmed that he shares ANTIFA’s taste in music and hatred of the United States of America, *id.* (May 31, 2020 Facebook post linking “F[**]k the USA” by the exploited), the police. *Id.* (separate May 31, 2020 Facebook posts linking N.W.A. “F[**]k the Police” and a post promoting phrase “Dead Cops”). *Id.* at 4-5.

173. Affiant and journalist Joseph Oltmann researched an ANTIFA in Colorado. *Id.* at 1. “On or about the week of September 27, 2020,” he attended an Antifa meeting which appeared to be between Antifa members in Colorado Springs and Denver Colorado,” where Dr. Coomer was present. In response to a question as to what Antifa “if Trump wins this ... election?”, Dr. Coomer responded “Don’t worry about the election. Trump is not going to win. I made f[**]king sure of that ... Hahaha.” *Id.* at 2.

174. By putting an anti-Trump zealot like Dr. Coomer in charge of election “Security,” and using his technology for what should be impartial “ballot adjudication,” Dominion has given the fox the keys to the hen house ***and has forfeited any presumption of objectivity, fairness, or***

even propriety. It appears that Dominion does not even care about even an appearance of impropriety, as its most important officer has his fingerprints all over a highly partisan, vindictive, and personal vendetta against the Republican nominee both in 2016 and 2020, President Donald Trump. Dr. Coomer’s highly partisan anti-Trump rages show clear motive on the part of Dominion to rig the election in favor of Biden, and may well explain why for each of the so-called “glitches” uncovered, it is always Biden receiving the most votes on the favorable end of such a “glitch.”

175. In sum, as set forth above, for a host of independent reasons, the Michigan certified election results concluding that Joe Biden received 154,188 more votes than President Donald Trump must be set aside.

COUNT I

Defendants Violated the Elections and Electors Clauses and 42 U.S.C. § 1983.

176. Plaintiffs reallege all preceding paragraphs as if fully set forth herein.

177. The Electors Clause states that “[e]ach State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors” for President. U.S. Const. art. II, §1, cl. 2 (emphasis added). Likewise, the Elections Clause of the U.S. Constitution states that “[t]he Times, Places, and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by *the Legislature* thereof.” U.S. Const. art. I, § 4, cl. 1 (emphasis added).

178. The Legislature is ““the representative body which ma[kes] the laws of the people.”” *Smiley v. Holm*, 285 U.S. 355, 365 (1932). Regulations of congressional and presidential elections, thus, “must be in accordance with the method which the state has prescribed for legislative enactments.” *Id.* at 367; *see also Ariz. State Legislature v.*

Ariz. Indep. Redistricting Comm'n, 135 S. Ct. 2652, 2668 (2015).

179. Defendants are not part of the Michigan Legislature and cannot exercise legislative power. Because the United States Constitution reserves for the Michigan Legislature the power to set the time, place, and manner of holding elections for the President and Congress, county boards of elections and state executive officers have no authority to unilaterally exercise that power, much less to hold them in ways that conflict with existing legislation. Defendants are not the legislature, and their unilateral decision to deviate from the requirements of the Michigan Election Code violates the Electors and Elections Clause of the United States Constitution.

180. Many affiants testified to Defendants' failure to follow the requirements of the Michigan Election Code, as enacted by the Michigan Legislature, MCL §§ 168.730-738, relating to the rights of partisan election challengers to provide transparency and accountability to ensure that all, and only, lawful ballots casts be counted, and that the outcome of the election was honestly and fairly determined by eligible voters casting legal ballots. As detailed in Section II, many of these requirements were either disregarded altogether or applied in a discriminatory manner to Republican election challengers. Specifically, election officials violated Michigan's Election Code by: (a) disregarding or violating MCL § 168.730 and § 168.733 requiring election challengers to have meaningful access to observe the counting and processing of ballots, *see supra* Section II.A; (b) wanton and widespread forgery and alteration, addition or removal of votes, voters, or other information from ballots, the QVF or other voting records, *see supra* Section II.B; and (c) illegal double voting, counting ineligible ballots, failure to check signatures or postmarks, and several other practices in clear violation of

the Michigan Election Code (and in some cases at the express direction of supervisors or Wayne County officials). *See supra* Section II.C.

181. Plaintiffs have no adequate remedy at law and will suffer serious and irreparable harm unless the injunctive relief requested herein is granted. Defendants have acted and, unless enjoined, will act under color of state law to violate the Elections Clause. Accordingly, the results for President in the November 3, 2020 election must be set aside, the State of Michigan should be enjoined from certifying the results thereof, and this Court should grant the other declaratory and injunctive relief requested herein.

COUNT II

Governor Whitmer, Secretary Benson and Other Defendants Violated The Equal Protection Clause of the Fourteenth Amendment U.S. Const. Amend. XIV & 42 U.S.C. § 1983

Invalid Enactment of Regulations Affecting Observation and Monitoring of the Election & Disparate Implementation of Michigan Election Code

182. Plaintiffs refer to and incorporate by reference each of the prior paragraphs of this Complaint as though the same were repeated at length herein.

183. The Fourteenth Amendment of the United States Constitution provides “nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. *See also Bush v. Gore*, 531 U.S. 98, 104 (2000) (having once granted the right to vote on equal terms, the State may not, by later arbitrary and disparate treatment, value one person’s vote over the value of another’s). *Harper v. Va. Bd. of Elections*, 383 U.S. 663, 665 (1966) (“Once the franchise is granted to the electorate, lines may not be drawn which are inconsistent with the Equal Protection Clause of the Fourteenth Amendment.”). The

Court has held that to ensure equal protection, a problem inheres in the absence of specific standards to ensure its equal application. *Bush*, 531 U.S. at 106 (“The formulation of uniform rules to determine intent based on these recurring circumstances is practicable and, we conclude, necessary.”).

184. The equal enforcement of election laws is necessary to preserve our most basic and fundamental rights. The requirement of equal protection is particularly stringently enforced as to laws that affect the exercise of fundamental rights, including the right to vote.

185. The disparate treatment of Michigan voters, in subjecting one class of voters to greater burdens or scrutiny than another, violates Equal Protection guarantees because “the right of suffrage can be denied by a debasement or dilution of the weight of a citizen’s vote just as effectively as by wholly prohibiting the free exercise of the franchise.” *Reynolds*, 377 U.S. at 555. *Rice v. McAlister*, 268 Ore. 125, 128, 519 P.2d 1263, 1265 (1975); *Heitman v. Brown Grp., Inc.*, 638 S.W.2d 316, 319, 1982 Mo. App. LEXIS 3159, at *4 (Mo. Ct. App. 1982); *Prince v. Bear River Mut. Ins. Co.*, 2002 UT 68, ¶ 41, 56 P.3d 524, 536-37 (Utah 2002).

186. In statewide and federal elections conducted in the State of Michigan, including without limitation the November 3, 2020 General Election, all candidates, political parties, and voters, including without limitation Plaintiffs, have a vested interest in being present and having meaningful access to observe and monitor the electoral process in each County to ensure that it is properly administered in every election district and otherwise free, fair, and transparent. Moreover, through its provisions involving watchers and representatives, the Michigan Election Code ensures that all candidates and political parties in each County, including the Trump Campaign,

have meaningful access to observe and monitor the electoral process to ensure that it is properly administered in every election district and otherwise free, fair, and transparent. *See, e.g.*, MCL § 168.730 & § 168.733(1).

187. Further, the Michigan Election Code provides it is a felony punishable by up to two years in state prison for any person to threaten or intimidate a challenger who is performing any activity described in Michigan law. MCL § 168.734(4). Defendants have a duty to treat the voting citizens in each County in the same manner as the citizens in other Counties in Michigan.

188. As set forth in Count I above, Defendants failed to comply with the requirements of the Michigan Election Code and thereby diluted the lawful ballots of the Plaintiffs and of other Michigan voters and electors in violation of the United States Constitution guarantee of Equal Protection.

189. Specifically, Defendants denied the Trump Campaign equal protection of the law and their equal rights to meaningful access to observe and monitor the electoral process enjoyed by citizens in other Michigan Counties by: (a) denying Republican poll challengers access to the TCF Center or physically removing them or locking them out for pretextual reasons; (b) denied Republican poll watchers meaningful access to, or even physically blocking their view of, ballot handling, processing, or counting; (c) engaged in a systematic pattern of harassment, intimidation, verbal insult, and even physical removal of Republican poll challengers; (d) systematically discriminated against Republican poll watchers and in favor of Democratic poll watchers and activists in enforcing rules (in particular, through abuse of “social distancing” requirements); (e) ignored or refused to record Republican challenges to the violations set forth herein; (f)

refused to permit Republican poll watchers to observe ballot duplication or to check if duplication was accurate; (g) unlawfully coached voters to vote for Biden and other democratic candidates, including at voting stations; and (h) colluded with other Michigan State, Wayne County and City of Detroit employees (including police) and Democratic poll watchers and activists to engage in the foregoing violations. *See generally supra* Section II.A.

190. Defendants further violated Michigan voters' rights to equal protection insofar as it allowed Wayne County and City of Detroit election workers to process and count ballots in a manner that allowed ineligible ballots to be counted, including: (a) fraudulently adding tens of thousands of new ballots and/or new voters to the QVF in two separate batches on November 4, 2020, all or nearly all of which were votes for Joe Biden; (b) systematically forging voter information and fraudulently adding new voters to the QVF (in particular, where a voter's name could not be found, assigning the ballot to a random name already in the QVF to a person who had not voted and recorded these new voters as having a birthdate of 1/1/1900); (c) fraudulently changing dates on absentee ballots received after 8:00 PM Election Day deadline to indicate that such ballots were received before the deadline; (d) changing votes for Trump and other Republican candidates; (e) adding votes to "undervote" ballots and removing votes from "Over-Votes"; (f) permitting illegal double voting by persons that had voted by absentee ballot and in person; (g) counting ineligible ballots – and in many cases – multiple times; (h) counting ballots without signatures, or without attempting to match signatures, and ballots without postmarks, pursuant to direct instructions from Defendants; (i) counting "spoiled" ballots; (j) systematic violations of ballot secrecy

requirements; (k) accepting unsecured ballots arrived at the TCF Center loading garage, not in sealed ballot boxes, without any chain of custody, and without envelopes, after the 8:00 PM Election Day deadline; (l) accepting and counting ballots from deceased voters; and (m) accepting and counting ballots collected from unattended remote drop boxes. *See generally infra* Section II.B. and II.C.

191. Plaintiffs have obtained direct eyewitness testimony confirming that certain of these unlawful practices were at the express direction of Wayne County election officials. With respect to (a) and (b), Affiant Cushman testified that election supervisor Miller informed him that the Wayne County Clerk's office had expressly instructed them to manually to enter thousands of ballots arriving around 9 PM on November 4, 2020, from voters not in the QVF, and to manually enter these unregistered voters in the QVF with the birthdate of 1/1/1900. Ex. 4, GLJC Complaint, Ex. D ¶¶ 14-17. With respect to (c), fraudulently back-dating absentee ballots, City of Detroit election worker Affiant Jacob affirmed that she was instructed by supervisors to "improperly pre-date the absentee ballots receive date ... to falsely show that absentee ballots had been received in time to be valid." *Id.* Ex. B ¶17. With respect to (h) (accepting ballots without signatures or postmarks), affiants testified that election workers did so at the express direction of Wayne County election officials. *See id.* ¶15.

192. Other Michigan county boards of elections provided watchers and representatives of candidates and political parties, including without limitation watchers and representatives of the Trump Campaign, with appropriate access to view the absentee and mail-in ballots being pre-canvassed and canvassed by those county election boards without the restrictions and discriminatory treatment outline above.

Defendants intentionally and/or arbitrarily and capriciously denied Plaintiffs access to and/or obstructed actual observation and monitoring of the absentee and mail-in ballots being pre-canvassed and canvassed by Defendants, depriving them of the equal protection of those state laws enjoyed by citizens in other Counties.

193. Defendants have acted and will continue to act under color of state law to violate Plaintiffs' right to be present and have actual observation and access to the electoral process as secured by the Equal Protection Clause of the United States Constitution. Defendants thus failed to conduct the general election in a uniform manner as required by the Equal Protection Clause of the Fourteenth Amendment, the corollary provisions of the Michigan Constitution, and the Michigan Election Code.

194. Plaintiffs seek declaratory and injunctive relief requiring Secretary Benson to direct that the Michigan Counties allow a reasonable number of challengers to meaningfully observe the conduct of the Michigan Counties canvassers and board of state canvassers and that these canvassing boards exercise their duty and authority under Michigan law, which forbids certifying a tally that includes any ballots that were not legally cast, or that were switched from Trump to Biden through the unlawful use of Dominion Democracy Suite software and devices.

195. In addition, Plaintiffs ask this Court to order that no ballot processed by a counting board in the Michigan Counties can be included in the final vote tally unless a challenger was allowed to meaningfully observe the process and handling and counting of the ballot, or that were unlawfully switched from Trump to Biden.

196. Plaintiffs have no adequate remedy at law and will suffer serious and irreparable harm unless the declaratory and injunctive relief requested herein is granted.

Indeed, the setting aside of an election in which the people have chosen their representative is a drastic remedy that should not be undertaken lightly, but instead should be reserved for cases in which a person challenging an election has clearly established a violation of election procedures and has demonstrated that the violation has placed the result of the election in doubt. Michigan law allows elections to be contested through litigation, both as a check on the integrity of the election process and as a means of ensuring the fundamental right of citizens to vote and to have their votes counted accurately.

197. In addition to the alternative requests for relief in the preceding paragraphs, hereby restated, Plaintiffs seek a permanent injunction requiring the Wayne County and other Michigan Election Boards to invalidate ballots cast by: (1) any voter added to the QVF after the 8:00 PM Election Day deadline; (3) any absentee or mail-in ballot received without a signature or postmark; (4) any ballot cast by a voter who submitted a mail-in ballot and voted in person; (5) any ballot cast by a voter not in the QVF that was assigned the name of a voter in the QVF; (6) voters whose signatures on their registrations have not been matched with ballot, envelope and voter registration check; and (7) all “dead votes”. *See generally supra* Section II.A-II.C.

COUNT III

Fourteenth Amendment, Amend. XIV & 42 U.S.C. § 1983

Denial of Due Process On The Right to Vote

198. Plaintiffs refer to and incorporate by reference each of the prior paragraphs of this Complaint as though the same were repeated at length herein.

199. The right of qualified citizens to vote in a state election involving federal

candidates is recognized as a fundamental right under the Fourteenth Amendment of the United States Constitution. *Harper*, 383 U.S. at 665. *See also Reynolds*, 377 U.S. at 554 (The Fourteenth Amendment protects the “the right of all qualified citizens to vote, in state as well as in federal elections.”). Indeed, ever since the *Slaughter-House Cases*, 83 U.S. 36 (1873), the United States Supreme Court has held that the Privileges or Immunities Clause of the Fourteenth Amendment protects certain rights of federal citizenship from state interference, including the right of citizens to directly elect members of Congress. *See Twining v. New Jersey*, 211 U.S. 78, 97 (1908) (citing *Ex parte Yarbrough*, 110 U.S. 651, 663-64 (1884)). *See also Oregon v. Mitchell*, 400 U.S. 112, 148-49 (1970) (Douglas, J., concurring) (collecting cases).

200. The fundamental right to vote protected by the Fourteenth Amendment is cherished in our nation because it “is preservative of other basic civil and political rights.” *Reynolds*, 377 U.S. at 562. Voters have a “right to cast a ballot in an election free from the taint of intimidation and fraud,” *Burson v. Freeman*, 504 U.S. 191, 211 (1992), and “[c]onfidence in the integrity of our electoral processes is essential to the functioning of our participatory democracy.” *Purcell v. Gonzalez*, 549 U.S. 1, 4 (2006) (per curiam).

201. “Obviously included within the right to [vote], secured by the Constitution, is the right of qualified voters within a state to cast their ballots and have them counted” if they are validly cast. *United States v. Classic*, 313 U.S. 299, 315 (1941). “[T]he right to have the vote counted” means counted “at full value without dilution or discount.” *Reynolds*, 377 U.S. at 555, n.29 (quoting *South v. Peters*, 339 U.S. 276, 279 (1950) (Douglas, J., dissenting)).

202. “Every voter in a federal . . . election, whether he votes for a candidate with little chance of winning or for one with little chance of losing, has a right under the Constitution to have his vote fairly counted, without its being distorted by fraudulently cast votes.” *Anderson v. United States*, 417 U.S. 211, 227 (1974); *see also Baker v. Carr*, 369 U.S. 186, 208 (1962). Invalid or fraudulent votes “debase[]” and “dilute” the weight of each validly cast vote. *See Anderson*, 417 U.S. at 227.

203. The right to vote includes not just the right to cast a ballot, but also the right to have it fairly counted if it is legally cast. The right to vote is infringed if a vote is cancelled or diluted by a fraudulent or illegal vote, including without limitation when a single person votes multiple times. The Supreme Court of the United States has made this clear in case after case. *See, e.g., Gray v. Sanders*, 372 U.S. 368, 380 (1963) (every vote must be “protected from the diluting effect of illegal ballots.”); *Crawford v. Marion Cnty. Election Bd.*, 553 U.S. 181, 196 (2008) (plurality op. of Stevens, J.) (“There is no question about the legitimacy or importance of the State’s interest in counting only the votes of eligible voters.”); *accord Reynolds v. Sims*, 377 U.S. 533, 554-55 & n.29 (1964).

204. The right to an honest [count] is a right possessed by each voting elector, and to the extent that the importance of his vote is nullified, wholly or in part, he has been injured in the free exercise of a right or privilege secured to him by the laws and Constitution of the United States.” *Anderson*, 417 U.S. at 226 (*quoting Prichard v. United States*, 181 F.2d 326, 331 (6th Cir.), *aff’d due to absence of quorum*, 339 U.S. 974 (1950)).

205. Practices that promote the casting of illegal or unreliable ballots or fail to contain basic minimum guarantees against such conduct, can violate the Fourteenth

Amendment by leading to the dilution of validly cast ballots. See *Reynolds*, 377 U.S. at 555 (“[T]he right of suffrage can be denied by a debasement or dilution of the weight of a citizen’s vote just as effectively as by wholly prohibiting the free exercise of the franchise.”).

206. Section II of this Complaint and the exhibits attached hereto describe widespread and systematic violations of the Due Process Clause described, namely: (A) Section II.A, Republican poll challengers were denied the opportunity to meaningfully observe the processing and counting of ballots; (B) Section II.B, election workers forged, added, removed or otherwise altered information on ballots, the QFV and other voting records; and (C) Section II.C, several other Michigan Election Code violations that caused or facilitated the counting of tens of thousands of ineligible, illegal or duplicate ballots.

207. Plaintiffs seek declaratory and injunctive relief requiring that Secretary Benson and Wayne County are enjoined from certifying the results of the General Election, or in the alternative, conduct a recount or recanvass in which they allow a reasonable number of challengers to meaningfully observe the conduct of the Michigan Board of State Canvassers and the Michigan county Boards of Canvassers and that these canvassing boards exercise their duty and authority under Michigan law, which forbids certifying a tally that includes any ballots that were not legally cast, or that were switched from Trump to Biden through the unlawful use of Dominion Democracy Suite software and devices.

COUNT IV

Wide-Spread Ballot Fraud

Violations of Michigan Election Code (MCL §§ 168.730-738) &

Michigan Constitution, Art. II § 4

208. Plaintiffs reallege all preceding paragraphs as if fully set forth herein.

209. Plaintiffs contest the results of Michigan's 2020 General Election. In 2018, the voters of Michigan enacted an amendment to Article II of the Michigan Constitution that conferred a number of rights on Michigan voters, and empowered the Michigan Legislature, to "enact laws ... to preserve the purity of elections, ... [and] to guard against abuses of the elective franchise" Mich. Const. Art. II § 4(2). Standing conferred under the Michigan Constitution, Art. II § 4(1), which provides that "[e]very citizen of the United States who is an elector qualified to vote in Michigan shall have the right," among other things, "to have the results of statewide elections audited, ..., to ensure the accuracy and integrity of elections."

210. Various provisions of the Michigan Election Code also give any citizen the right to bring an election challenge within 30 days of an election where, as here, it appears that a material fraud or error has been committed. *See, e.g., Hamlin v. Saugatuck Twp.*, 299 Mich. App. 233, 240-241 (2013) (*citing Barrow v. Detroit Mayor*, 290 Mich. App. 530 (2010)); MCL § 168.31a (setting forth election audit requirements); MCL § 168.861 (*quo warranto* remedy for fraudulent or illegal voting).

211. This Complaint has provided evidence from dozens of eyewitnesses who have detailed dozens of separate violations of the Michigan Election Code by election workers, acting in concert with government employees and Democratic operatives and activists, *see generally* Section II; reinforced by several expert witnesses, each testifying regarding distinct types statistical anomalies that, whether considered in isolation or in

combination with others, affect a sufficient number of ballots to affect the result of the election, *see generally* Section III; and combined fact and expert testimony regarding Dominion showing that Dominion, whether acting alone or in concert with domestic or foreign actors had the means, motive and opportunity to fraudulently manipulate votes and change the election results. *See generally* Section IV.

212. Plaintiffs are not, however, the only ones expressing grave concerns regarding the propriety of the 2020 General Election. In a concurring opinion issued just a few days ago in *Costantino v. City of Detroit*, 2020 WL 6882586 (Mich. Nov. 23, 2020), Justice Zahra of the Supreme Court of Michigan, in denying as moot a request to enjoin certification by Wayne County (but not the audit or other requested relief), stated that “Nothing said is to diminish the troubling and serious allegations of fraud and irregularities asserted by affiants . . . , among whom is Ruth Johnson, Michigan’s immediate past Secretary of State.” *Id.* at *2 (Zahra, J., concurring).

213. As here, plaintiffs in *Costantino*, presented “evidence to substantiate their allegations, which include claims of ballots being counted from voters whose names were not contained in the appropriate poll books, instructions being given to disobey election laws and regulations,” and several other categories of violations that overlap with those alleged in this Complaint and in affiants’ testimony. *Id.* This opinion further urged the trial court to schedule evidentiary hearing on an expedited basis. *Id.*

Violation of MCL 168.765a.

214. Absent voter ballots must only be counted when “at all times” there is “at least 1 election inspector from each major political party.” MCL 168.765a.

215. Per eyewitness accounts described in this Complaint and its attached sworn affidavits, Defendants habitually and systematically disallowed election inspectors from the

Republican Party, including Plaintiff, to be present in the voter counting place and refused access to election inspectors from the Republican Party, including Plaintiff, to be within a close enough distance from the absent voter ballots to be able to see for whom the ballots were cast. *See generally supra* Section II.A.

216. Defendants refused entry to official election inspectors from the Republican Party, including Plaintiff, into the counting place to observe the counting of absentee voter ballots. Defendants even physically blocked and obstructed election inspectors from the Republican Party, including Plaintiff, by adhering large pieces of cardboard to the transparent glass doors so the counting of absent voter ballots was not viewable.

Violation of MCL 168.733

217. MCL 168.733 sets forth the procedures for election challengers and the powers of election inspectors.

218. Per eyewitness accounts described in this Complaint and its attached sworn affidavits, Defendants habitually and systematically failed to provide space for election inspectors from the Republican party, including Plaintiff, to observe election procedure, failed to allow the inspection of poll books, failed to share the names of the electors being entered in the poll books, failed to allow the examination of each ballot as it was being counted, and failed to keep records of obvious and observed fraud. *See generally supra* Section II.A.

219. Poll challengers, including Plaintiff, observed election workers and supervisors writing on ballots themselves to alter them, apparently manipulating spoiled ballots by hand and then counting the ballots as valid, counting the same ballot more than once, adding information to incomplete affidavits accompanying absentee ballots, counting absentee

ballots returned late, counting unvalidated and unreliable ballots, and counting the ballots of “voters” who had no recorded birthdates and were not registered in the State’s Qualified Voter File or on any Supplemental voter lists.

Violation of MCL 168.765(5) and 168.764a

220. Michigan election law, MCL 168.765(5), requires Defendants to post the specific absentee voting information anytime an election is conducted which involves a state or federal office, in particular, the number of absentee ballots distributed to absent voters.

221. Upon information and belief, Defendants failed to post by 8:00 AM on Election Day the number of absentee ballots distributed to absent voters and failed to post before 9:00 PM the number of absent voters returned before on Election Day.

222. Per Michigan Election law, all absentee voter ballots must be returned to the clerk before polls close at 8 PM. MCL 168.764a. Any absentee voter ballots received by the clerk after the close of the polls on election day will not be counted.

223. Michigan allows for early counting of absentee votes prior to the closings of the polls for large jurisdictions, such as the City of Detroit and Wayne County.

224. Upon information and belief, receiving tens of thousands additional absentee ballots in the early morning hours after election day and after the counting of the absentee ballots had concluded, without proper oversight, with tens of thousands of ballots attributed to just one candidate, Joe Biden, indicates Defendants failed to follow proper election protocol. *See generally supra* Section II.B.1.

Violation of MCL 168.730

225. MCL 168.730 sets forth the rights and requirements for election challengers. MCL 168.734 provides, among other things:

Any officer or election board who shall prevent the presence of any such

challenger as above provided, or shall refuse or fail to provide such challenger with conveniences for the performance of the duties expected of him, shall, upon conviction, be punished by a fine not exceeding \$1,000.00, or by imprisonment in the state prison not exceeding 2 years, or by both such fine and imprisonment in the discretion of the court.

226. Wayne County's and Secretary Benson's denial of Republican challengers' right to participate and observe the processing of ballots violates Michigan's Election Code and resulting in the casting and counting of ballots that were ineligible to be counted and diluted or canceled out the lawfully cast ballots of other Michigan voters.

227. Further, Secretary of State Benson and the election officials in Wayne County violated MCL 168.730-168.734 by denying Republican challengers' rights to meaningfully observe and participate in the ballot processing and counting process.

228. Based upon the above allegations of fraud, statutory violations, and other misconduct, as stated herein and in the attached affidavits, it is necessary to order appropriate relief, including, but not limited to, enjoining the certification of the election results pending a full investigation and court hearing, ordering a recount of the election results, or voiding the election and ordering a new election, to remedy the fraud.

PRAYER FOR RELIEF

229. Accordingly, Plaintiffs seek an emergency order instructing Defendants to decertify the results of the General Election for the Office of President.

230. Alternatively, Plaintiffs seek an order instructing the Defendants to certify the results of the General Election for Office of the President in favor of President Donald Trump.

231. In the alternative, Plaintiffs seek an emergency order prohibiting Defendants from including in any certified results from the General Election the tabulation of absentee and mailing ballots which do not comply with the Michigan Election Code, including, without limitation, the tabulation of absentee and mail-in ballots Trump Campaign's watchers were prevented from observing or based on the tabulation of invalidly cast absentee and mail-in ballots which (i) lack a secrecy envelope, or contain on that envelope any text, mark, or symbol which reveals the elector's identity, political affiliation, or candidate preference, (ii) do not include on the outside envelope a completed declaration that is dated and signed by the elector, (iii) are delivered in-person by third parties for non-disabled voters, or (iv) any of the other Michigan Election Code violations set forth in Section II of this Complaint.

232. Order production of all registration data, ballots, envelopes, etc. required to be maintained by law. When we consider the harm of these uncounted votes, and ballots not ordered by the voters themselves, and the potential that many of these unordered ballots may in fact have been improperly voted and also prevented proper voting at the polls, the mail ballot system has clearly failed in the state of Michigan and did so on a large scale and widespread basis. The size of the voting failures, whether accidental or intentional, are multiples larger than the margin in the state. For these reasons, Michigan cannot reasonably rely on the results of the mail vote. Relief sought is the elimination of the mail ballots from counting in the 2020 election.

Alternatively, the electors for the State of Michigan should be disqualified from counting toward the 2020 election. Alternatively, the electors of the State of Michigan should be directed to vote for President Donald Trump.

233. For these reasons, Plaintiffs ask this Court to enter a judgment in their favor and provide the following emergency relief:

1. An order directing Secretary Benson, Governor Whitmer, the Board of State Canvassers and Wayne County to de-certify the election results;
2. An order enjoining Secretary Benson and Governor Whitmer from transmitting the currently certified election results to the Electoral College;
3. An order requiring Governor Whitmer to transmit certified election results that state that President Donald Trump is the winner of the election;
4. An immediate order to impound all the voting machines and software in Michigan for expert inspection by the Plaintiffs.
5. An order that no votes received or tabulated by machines that were not certified as required by federal and state law be counted.
6. A declaratory judgment declaring that Michigan's failed system of signature verification violates the Electors and Elections Clause by working a de facto abolition of the signature verification requirement;
7. A declaratory judgment declaring that current certified election results violates the Due Process Clause, U.S. CONST. Amend. XIV;

8. A declaratory judgment declaring that mail-in and absentee ballot fraud must be remedied with a Full Manual Recount or statistically valid sampling that properly verifies the signatures on absentee ballot envelopes and that invalidates the certified results if the recount or sampling analysis shows a sufficient number of ineligible absentee ballots were counted;
9. An emergency declaratory judgment that voting machines be Seized and Impounded immediately for a forensic audit—by Plaintiffs’ experts;
10. A declaratory judgment declaring absentee ballot fraud occurred in violation of Constitutional rights, Election laws and under state law;
11. A permanent injunction prohibiting the Governor and Secretary of State from transmitting the currently certified results to the Electoral College based on the overwhelming evidence of election tampering;
12. Immediate production of 48 hours of security camera recording of all rooms used in the voting process at the TCF Center for November 3 and November 4.
13. Plaintiffs further request the Court grant such other relief as is just and proper, including but not limited to, the costs of this action and their reasonable attorney fees and expenses pursuant to 42 U.S.C. 1988.

Respectfully submitted, this 29th day of November, 2020.
